Overview

ABSTRACT

The Employment and Unemployment surveys of National sample Survey (NSS) are primary sources of data on various indicators of labour force at National and State levels. These are used for planning, policy formulation, decision support and as input for further statistical exercises by various Government organizations, academicians, researchers and scholars. NSS surveys on employment and un-employment with large sample size of households have been conducted quinquennially from 27th. round(October'1972 - September'1973) onwards. The NSS 68th. round carried out during July'2011 - June'2012 was the ninth quinquennial round in the series covering subjects of (i) Household Consumer Expenditure and (ii) Employment and Unemployment.

Field work of the survey is carried out by the Field Operation Division (FOD) of National Sample Survey Office (NSSO) in which the central samples are covered. most of the State Governments also participate in the survey on matching sample size basis.

The National Sample Survey Office (NSSO) during the period July 2011 - June 2012 carried out an all-India household survey on the subject of employment and unemployment in India as a part of 68th round of its survey programme. In this survey, the nation-wide enquiry was conducted to generate estimates of various characteristics pertaining to employment and unemployment and labour force characteristics at the national and State levels. Information on various facets of employment and unemployment in India was collected through a schedule of enquiry (Schedule 10) adopting the established concepts, definitions and procedures. Based on the data collected during the entire period of survey, estimates of some key employment-unemployment characteristics in India and States have been presented in the NSSO published report on Key Indicators of Employment and Unemployment July'2011 - June'2012 (68th Round).

The main objective of the employment-unemployment surveys conducted by NSSO at periodic interval is to get estimates of level parameters of various employment and unemployment characteristics at national and State level. These statistical indicators on labour market are required for planning, policy and decision making at various levels, both within the government and outside. The critical issues in the context of labour force

enquiries pertain to defining the labour force and measuring participation of labour force in different economic activities. The activity participation of the people is not only dynamic but also multidimensional: it varies with region, age, education, gender, level of living, industry and occupational category. These aspects of the labour force are captured in detail in the NSS survey on employment and unemployment and estimates are generated for labour force participation rate, worker population ratio, unemployment rate, wages of employees, etc. The indicators of the structural aspects of the workforce such as status in employment, industrial distribution and occupational distribution are also derived from the survey. Besides, from the data collected on the particulars of enterprises and conditions of employment, the aspects of employment in the informal sector and informal

employment are reflected through the conceptual framework of the survey.

UNITS OF ANALYSIS
Households and Persons

Scope

NOTES

The critical issues in the context of labour force enquiries pertain to defining the labour force and measuring participation of labour force in different economic activities. The activity participation of the people is not only dynamic but also multidimensional; it varies over regions, age, education, gender, industry and occupational categories. In NSS surveys, persons are classified into various activity categories on the basis of activities pursued by them during certain specified reference periods. Three reference periods are used in NSS surveys, viz. (i) one year, (ii) one week and (iii) each day of the reference week. Based on these three periods, three different measures of activity status are arrived

at. The activity status determined on the basis of the reference period of one year is known as the usual activity status (US) of a person, that determined on the basis of a reference period of one week is known as the current weekly status (CWS) of the person and the activity status determined on the basis of the engagement on each day during the reference week is known as the current daily status (CDS) of the person.

Geographical coverage: The survey covered the whole of the Indian Union except (i) interior villages of Nagaland situated beyond five kilometres of the bus route and (ii) villages in Andaman and Nicobar Islands which remained inaccessible throughout the year. However, all the sample first stage units of both rural and urban areas of Leh, Kargil and Poonch districts of Jammu & Kashmir became casualty and therefore these districts were outside the survey coverage.

Sub-round: The fieldwork of the 66th round of NSSO started from 1st July, 2009 and continued till 30th June, 2010. As usual, the survey period of this round was divided into four sub-rounds, each with a duration of three months, the 1st sub-round period ranging from July to September 2009, the 2nd sub-round period from October to December 2009 and so on. An equal number of sample villages/blocks (FSUs) was allotted for survey in each of these four sub-rounds. The survey used the interview method of data collection from a sample of randomly selected households.

Out of the total number of 12,808 FSUs (7,524 villages and 5,284 urban blocks) allotted for the central sample² (including 24 state sample FSUs of Leh and Kargil districts of J & K: 16 for rural sector and 8 for urban sector), 12,654 FSUs (7,402 villages and 5,252 urban blocks) could be surveyed at the all-India level for canvassing Schedule 10.

The number of households surveyed was 1,00,957 (59,129 in rural areas and 41,828 in urban areas) and number of persons surveyed was 4,59,784 (2,81,327 in rural areas and 1,78,457 in urban areas).

In NSS 66th round, data on employment-unemployment characteristics were collected through Schedule 10. The schedule captured a range of information on the following aspects:

i) Household characteristics, like household size, religion, social group, land possessed, land cultivated, etc. For the rural households information was collected, on whether the household has Mahatma Gandhi National Rural Employment Guarantee (MGNREG) job card, whether got work in MGNREG works during the last 365 days, number of days got work in MGNREG works and mode of payment of the wages earned in MGNREG works. Information on household monthly consumer expenditure was also collected through a worksheet to study the employment-unemployment characteristics with the level of living of the population.

ii) Demographic particulars, like age, sex, educational level, status of current attendance and vocational training.

iii) Usual principal activity status and subsidiary economic activity status of the all persons.

iv) Particulars of the enterprise for all the usual status workers (excluding those engaged in growing of crops and growing of crops combined with farming of animals) viz., location of work place, type of enterprises, number of workers in the enterprise etc. and some particulars on the conditions of employment for the employees, like type of job contract, eligibility for paid leave, availability of social security benefits, etc.

For self-employed persons in the usual status, some particulars were collected for identification of home-based workers.

v) Extent of underutilization of the labour time and on the qualitative aspects of employment, like changes in activity status, occupation /industry, existence of trade unions/associations, nature of employment (permanent/temporary), etc.

vi) Participation in specified activities by the household members who are classified as engaged in domestic duties in the usual principal activity status

KEYWORDS

Employment, Unemployment, Indebtedness of rural labour, Usual principal activity, Usual Subsidiary economic activity, Time disposition during the week, Unemployed persons on all the 7 days of the week, Change of nature of work, Change of establishment, Household consumer expenditure

Coverage

GEOGRAPHIC COVERAGE

The survey covered the whole of the Indian Union except (i) interior villages of Nagaland situated beyond five kilometres of the bus route and (ii) villages in Andaman and Nicobar Islands which remained inaccessible throughout the year.

Sampling

Sampling Procedure

The 68th round (July 2011-June 2012) of NSS was earmarked for survey on 'Household Consumer Expenditure' and 'Employment and Unemployment'. The survey covered the whole of the Indian Union except (i) interior villages of Nagaland situated beyond five kilometres of the bus route and (ii) villages in Andaman and Nicobar Islands which remain inaccessible throughout the year. In addition to these, all the sample first stage units of the following areas were casualty in different sub-rounds: in sub-rounds 1, 2,3 and 4. In each of these four sub-rounds equal number of sample villages/ blocks (FSUs) was allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period. Attempt was made to survey each of the FSUs during the sub-round to which it is allotted. Because of the arduous field conditions, this restriction need not be strictly enforced in Andaman and Nicobar Islands, Lakshadweep and rural areas of Arunachal Pradesh and Nagaland.

Sample Design

A stratified multi-stage design has been adopted for the 68th round survey. The first stage units (FSU) was the 2001 census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) was households in both the sectors. In case of large FSUs, one intermediate stage of sampling was the selection of two hamlet-groups (hgs)/ sub-blocks (sbs) from each rural/ urban FSU.

Selection of the first-stage units: The various steps involved before making the selection of the FSUs are discussed at length in the following few paragraphs before taking up the issue of selection of USUs within FSUs.

Sampling Frame for First Stage Units: For the rural sector, the list of 2001 census villages (Panchayat wards in case of Kerala) constituted the sampling frame. For the urban sector, the list of latest available UFS blocks constituted the sampling frame.

Stratification of the first stage units: Within each district of a State/ UT, two basic strata were formed as follows: Within each sector of a State/ UT, the respective sample size will be allocated to the different strata/ sub-strata in proportion to the population as per census 2001. Allocations at stratum level were adjusted to multiples of 4 with a minimum sample size of 4. Allocation for each sub-stratum was 4. Equal number of samples were allocated among the four sub-rounds.

Selection of first-stage units: For the rural sector, from each stratum/ sub-stratum, required number of sample villages were selected by probability proportional to size with replacement (PPSWR), size being the population of the village as per Census 2001. For urban sector, from each stratum FSUs were selected by using Simple Random Sampling Without Replacement (SRSWOR). Both rural and urban samples were drawn in the form of two independent sub-samples.

Selection of Ultimate Stage Units (USU) within a FSU: The remaining paragraphs of this sub-section outlines the various steps leading to the actual selection of USUs within a FSU.

Criterion for hamlet-group/ sub-block formation: After identification of the boundaries of the FSU, it is to be determined whether listing was done in the whole sample FSU or not. In case the population of the selected FSU is found to be 1200 or more, it should be divided into a suitable number (say, D) of 'hamlet-groups' in the rural sector and 'sub-blocks' in the urban sector by more or less equalising the population as stated below.

approximate present population of the sample FSU no. of hg's/sb's to be formed

less than 1200 (no hamlet-groups/sub-blocks)	1
1200 to 1799	3
1800 to 2399	4
2400 to 2999	5
3000 to 3599	6
.....and so on	

For rural areas of Himachal Pradesh, Sikkim, Uttarakhand (except four districts Dehradun (P), Nainital (P), Hardwar and Udham Singh Nagar), Poonch, Rajouri, Udhampur, Doda, Leh (Ladakh), Kargil districts of Jammu and Kashmir and Idukki district of Kerala, the number of hamlet-groups were formed as follows:

approximate present population of the sample village no. of hg's to be formed

less than 600 (no hamlet-groups) 1
 600 to 899 3
 900 to 1199 4
 1200 to 1499 5
and so on

Formation and selection of hamlet-groups/ sub-blocks: In case hamlet-groups/ sub-blocks are to be formed in the sample FSU, the same should be done by more or less equalizing population. It was ensured that the hamlet-groups/ sub-blocks formed were clearly identifiable in terms of physical landmarks.

Two hamlet-groups (hg)/ sub-blocks (sb) were selected from a large FSU wherever hamlet-groups/ sub-blocks have been formed in the following manner - one hg/ sb with maximum percentage share of population always selected and termed as hg/ sb 1; one more hg/ sb selected from the remaining hg's/ sb's by simple random sampling (SRS) and termed as hg/ sb 2. Listing and selection of the households done independently in the two selected hamlet-groups/ sub-blocks. The FSUs without hg/ sb formation treated as sample hg/ sb number 1. It is to be noted that if more than one hg/ sb have same maximum percentage share of population, the one among them which is listed first in block 4.2 of schedule 0.0 treated as hg/ sb 1.

Listing of households: Having determined the hamlet-groups/ sub-blocks, i.e. area(s) to be considered for listing, the next step is to list all the households (including those found to be temporarily locked after ascertaining the temporariness of locking of households through local enquiry). The hamlet-group/ sub-block with sample hg/ sb number 1 considered for listing first, to be followed by the listing of households within the sample hg/sb number 2.

Formation of second stage strata and allocation of households

Two cut-off points 'A' and 'B' (in Rs.) are determined from NSS 66th round data for each NSS region for urban areas in such a way that top 10% of the population have MPCE more than 'B' and bottom 30% of the population have MPCE less than A. The values of A and B for each NSS Region have been given in Chapter Two.

For both Schedule 1.0 and Schedule 10, households listed in the selected FSU/ hamlet-group/ sub-block stratified into three second stage strata (SSS). Composition of the SSS and number of households to be surveyed from different SSS for each of the three schedules of enquiry namely, Schedule 1.0 (Type 1), Schedule 1.0 (Type 2) and Schedule 10 will be as follows:

SSS composition of SSS number of households to be surveyed
 FSU without hg/sb formation FSU with hg/sb formation (for each hg/sb)

Rural

SSS 1: relatively affluent households 2 1
 SSS 2: of the remaining, households having principal earning from non- agricultural activity 4 2
 SSS 3: other households 2 1

Urban

SSS 1: households having MPCE of top 10% of urban population (MPCE > B) 2 1
 SSS 2: households having MPCE of middle 60% of urban population (A = MPCE = B) 4 2
 SSS 3: households having MPCE of bottom 30% of urban population (MPCE < A) 2 1

The above table provides the plan of allocation of the sample household in the respective SSS. However, there can be situations in the selected FSUs both in rural and urban sectors where adequate number of households is not available for required allocation. In such situation, the selection of household for the SSS is compensated from the other SSS. This is done by adopting specified procedure. To meet the shortfall of households in one SSS compensation can be made from other SSSs. The details of the compensation rules are given in the Chapter two dealing with household Listing Schedule 0.0.

Selection of households: From each SSS the sample households for each of the schedules selected by SRSWOR. If a household is selected for more than one schedule, only one schedule canvassed in that household in the priority order of Schedule 1.0 (Type 1), Schedule 1.0 (Type 2) and Schedule 10 and in that case the household replaced for the other schedule. If a household is selected for Schedule 1.0 (Type 1) it was not be selected for Schedule 1.0 (Type 2) or Schedule 10. Similarly, if a household is not selected for Schedule 1.0 (Type 1) but selected for Schedule 1.0 (Type 2) it not be selected for Schedule 10.

Weighting

For all subround weights (or multipliers) are given at the end of each record from 133rd byte onwards. The weights (multipliers) are Sub-sample-wise, details of which are as given below : (For description of subsample, please see Instructions Manual for field staff, Vol-I)

Use of subsample-wise weights (all-subround multipliers)

For generating subsample-wise estimates based on data of all subrounds taken together, either Subsample-1 households or Subsample-2 households are to be considered at one time. Subsample code is available in the data file. (Please see layout of data).

Apply final weight (or all-subround multipliers) as follows :

final weight = $MLT/100$, if $NSS=NSC$
= $MLT/200$ otherwise.

Use of subsample-wise weights (subround multipliers)

For generating subsample-wise estimates based on data of a particular subround, either Subsample-1 households or Subsample-2 households are to be considered at one time. Subsample code is available in the data file. (Please see layout of data).

Apply weight (or subround multipliers) as follows :

weight = $MLT_SR/100$, if $NSS_SR=NSC_SR$
= $MLT_SR/200$ otherwise.

Questionnaires

Overview

In the present round, Schedule 10 on employment-unemployment consists of 16 blocks. The first three blocks, viz. Blocks 0, 1 and 2, are used to record identification of sample households and particulars of field operations, as is the common practice in usual NSS rounds. The last two blocks, viz., Blocks 10 and 11 are to record the remarks of investigator and comments by supervisory officer(s), respectively. Block 3 is used for recording the household characteristics, like household size, religion, social group, land possessed, land cultivated, etc. For the rural households information is also collected, in Block 3, on whether the household has NREG job card, whether got work in NREG works during the last 365 days, number of days got work in NREG works and mode of payment of the wages earned in NREG works. Besides, some particulars about holding of specified Post Office accounts and use of specified Postal services is also collected in this block. Block 3.1 is for recording particulars of indebtedness of rural labour households. Block 4 is used for recording the demographic particulars and attendance in educational institutions of the household members. Particulars of vocational training being received/received by the household members is also collected in this block. In Block 5.1, particulars of usual principal activity of all the household members is recorded along with some particulars of the enterprises in which the usual status workers (excluding those in crop and plantation activities) are engaged. In this block information for all the workers about the location of workplace is also collected. For the self-employed persons who are working under specifications (wholly or mainly), information is also collected about 'who provided credit/raw materials/equipments', 'basis of payment' and 'number of outlets of disposal'. Information on informal employment is also collected in Block 5.1. Similarly, the particulars of one subsidiary economic activity of the household members along with some particulars of the enterprises, informal employment and details of the self-employed persons in their subsidiary activity is recorded in Block 5.2. The daily time disposition for the seven days preceding the date of survey along with the corresponding activity particulars is recorded for each household member in Block 5.3. Besides this, the current weekly status (CWS) is derived from the daily time disposition data and recorded in this block. As in the past, wage and salary earnings and mode of payment is also collected for regular salaried/wage employees and for the casual labourers in this block. Block 6 is used to record the responses to the probing questions to the persons who were unemployed on all the seven days of the reference week. Blocks 7.1 and 7.2 contain the probing questions which are related to the under-utilisation of labour time and labour mobility, respectively. For the members of the household classified as engaged in 'domestic duties' as per their usual principal status, some follow-up questions have been framed and listed in Block 8, with a view to collecting some additional information which might explain as to whether their usual attachment to domestic duties was voluntary or involuntary and also to throw light on their participation in some specified activities for family gain. A worksheet to obtain the total monthly household consumer expenditure has been provided in Block 9.

V507	Spend_Time_on_Domestic_Duties	Spend time on domestic duties	discrete	character	were you required to spend most of your time on domestic duties almost throughout the last 365 days? (yes-1, no-2) ?

ID	Name	Label	Type	Format	Question
V508	Reason_thereof	Reason for domestic duties	discrete	character	if code 1 in item 3, reason thereof (no other member to carry out the domestic duties -1, cannot afford hired help -2, for social and/or religious constraints -3, others -9)
V509	Reason_Still_Pursuing_Dom_duties	Reason for still pursuing domestic duties	discrete	character	if code 2 in item 3, reason for still pursuing domestic duties (non-availability of work-1, by preference-2, others-9)
V510	Maintenance_of_Kitchen_Gardens	Matenance of Kitchen Garden	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: maintenance of kitchen gardens, orchards, etc.? (yes-1, no-2)
V511	Household_Poultry	Work in household poultry	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: work in household poultry, dairy, etc.? (yes-1, no-2)
V512	Free_Collection_Fish_Fruit_etc	Free collection of fish,vegeta	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: free collection of fish, small game, wild fruits, vegetables, etc. for household consumption? (yes-1, no-2)
V513	Free_Collection_of_Firewood_etc	Free collection of firewood	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: free collection of firewood, cow-dung, cattle feed, etc. for household consumption? (yes-1, no-2)
V514	Husking_of_Paddy	Husking of paddy	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: husking of paddy for household consumption? (code)
V515	Grinding_of_Food_Grains	Grinding of food grains	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: grinding of foodgrains for household consumption? (code)
V516	Preparation_of_Gur	Prepration of Gur	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: preparation of gur for household consumption? (code)
V517	Preservation_of_Meat_and_Fish	Presevation of meatand fish	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: preservation of meat and fish for household consumption? (code)
V518	Making_Baskets_and_Mats	Making basket and mats	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: making baskets and mats for household use? (code)

ID	Name	Label	Type	Format	Question
V519	Preparation_of_Cow_Dung_as_Fuel	Preparation of cow dung cake for fuel	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: preparation of cow-dung cake for use as fuel in the household? (yes-1, no-2)
V520	Sewing_Tailoring_Weaving_etc	Sewing, tailoring, etc	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: sewing, tailoring, weaving, etc. for household use? (yes-1, no-2)
V521	Tutoring_of_Children	Tuition to the children	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: tutoring of own children or others' children free of charge? (yes-1, no-2)
V522	Bring_Water_from_Outside_Premise	Bring water from outside premises	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: bringing water from outside the household premises? (yes-1, no-2)
V523	Rural_Bring_Water_Outside_Vill	For rural areas, bringing water from outside the village	discrete	character	Along with your domestic duties did you more or less regularly carry out during the last 365 days: for rural areas only 19. bringing water from outside the village? (yes-1, no-2)
V524	Rural_Distance_in_kilometres	Distance in kilometers	discrete	numeric	if 1 in item 19, distance in kilometres
V525	Willing_to_Accept_Work	willing to accept work at household	discrete	character	In spite of your pre-occupation in domestic duties, are you willing to accept work if work is made available at your household? (yes-1, no-2)
V526	Nature_of_Work_Acceptable	Nature of work accepted	discrete	character	If code 1 in item-21 of this block (i.e block-7) , the nature of work acceptable (regular full time-1, regular part-time-2, occasional full time-3, occasional part-time-4)
V527	Type_of_Work_Acceptable	Type of work accepted	discrete	character	If code 1 in item-21 of this block (i.e block-7) , type of work acceptable (code)
V528	Requisite_skill_experience	Requisite skill experience	discrete	character	If code 1 in item-21 of this block (i.e block-8) , do you have any skill/experience to undertake that work? (yes-1, no-2)
V529	Assistance_Required	Assistance required	discrete	character	what assistance do you require to undertake that work: no assistance -1; yes: initial finance on easy terms -2, working finance facilities -3, easy availability of raw materials -4, assured market -5, training -6, accommodation -7, others -9.

Description

The number of members of a household is its size.

Pre question

The size of the sample household i.e., the total number of persons normally residing together (i.e., under the same roof) and taking food from the same kitchen (including temporary stay-aways and excluding temporary visitors) will be recorded against this item

Interviewer instructions

The size of the sample household, i.e., the total number of persons normally residing together (i.e., under the same roof) and taking food from the same kitchen (including temporary stay-aways and excluding temporary visitors) will be recorded against this item. This number will be same as the last serial number recorded in column 1 of block 4.

National Industrial classification 2008 code (NIC_2008)

File: Block_3_Household characteristics

Overview

Type: Discrete	Valid cases: 94734
Format: character	Invalid: 0
Width: 5	

Pre question

Principal industry (NIC-2008): The description of the principal household industry recorded in the space provided. The description of the principal industry recorded in as specific terms as possible based on the description given by the informant. In other words, the industry description not copied from the NIC booklet if the informant's description gives a clearer idea of the industrial activity which determines the principal industry of the household.

Interviewer instructions

National Industrial classification 2008 code (NIC_2008)

File: Block_3_Household characteristics

To determine the household principal industry and occupation, the general procedure to be followed is to list all the occupations pertaining to economic activities pursued by the members of the household excluding those employed by the household and paying guests (who in view of their staying and taking food in the household are considered as its normal members) during the one year period preceding the date of survey, no matter whether such occupations are pursued by the members in their principal or subsidiary (on the basis of earnings) capacity. Out of the occupations listed that one which fetched the maximum earnings to the household during the last 365 days preceding the date of survey would be considered as the principal household occupation. It is quite possible that one or more members of the household may pursue the household occupation in different industries. In such cases, the particular industry out of all the different industries corresponding to the principal occupation, which fetched the maximum earnings, should be considered as the principal industry of the household. In extreme cases, the earnings may be equal in two different occupations or industry-occupation combinations. By convention, in such cases, priority will be given to the occupation or industry-occupation combination of the senior-most member.

The description of the principal household industry will be recorded in the space provided. The appropriate five-digit industry code of the NIC-2004 is to be recorded against 5 cells provided for recording NIC codes putting one digit in each cell. For households deriving income from non-economic activities only, (e.g. for a pensioner/ beggar/ prostitute household) a dash (-) may be put against this item.

National classification of occupation 2004 code (NCO_2004)

File: Block_3_Household characteristics

Overview

Type: Discrete

Format: character

Width: 3

Valid cases: 94762

Invalid: 0

Pre question

The description of the principal household occupation was recorded in the space provided. As in case of principal household industry, the description of the principal occupation, too recorded in as specific terms as possible based on the description given by the informant. In other words, the occupation description not to be copied from the NCO booklet if the informant's description gives a clearer idea of the principal occupation pursued by the household. The appropriate three-digit occupation code of the NCO-2004 is to be recorded in the entry cell, which has been trisected for recording each digit separately

Interviewer instructions

To determine the household principal industry and occupation, the general procedure to be followed is to list all the occupations pertaining to economic activities pursued by the members of the household excluding those employed by the household and paying guests (who in view of their staying and taking food in the household are considered as its normal members) during the one year period preceding the date of survey, no matter whether such occupations are pursued by the members in their principal or subsidiary (on the basis of earnings) capacity. Out of the occupations listed that one which fetched the maximum earnings to the household during the last 365 days preceding the date of survey would be considered as the principal household occupation. It is quite possible that one or more members of the household may pursue the household occupation in different industries. In such cases, the particular industry out of all the different industries corresponding to the principal occupation, which fetched the maximum earnings, should be considered as the principal industry of the household. In extreme cases, the earnings may be equal in two different occupations or industry-occupation combinations. By convention, in such cases, priority will be given to the occupation or industry-occupation combination of the senior-most member.

The description of the principal household occupation will be recorded in the space provided. The appropriate three-digit occupation code of the NCO -2004 is to be recorded against 3 cells provided for recording the NCO codes putting one digit in each cell. For households deriving income from non-economic activities only, a dash (-) may be put against this item.

Household type (HH_Type)

File: Block_3_Household characteristics

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 101707

Invalid: 0

Household type (HH_Type)

File: Block_3_Household characteristics

Pre question

Household type: The household type, based on the means of livelihood of a household, is decided on the basis of the sources of the household's income during the 365 days preceding the date of survey.

Interviewer instructions

The household type, based on the means of livelihood of a household, is decided on the basis of the sources of the household's income during the 365 days preceding the date of survey. For this purpose, only the household's income (net income and not gross income) from economic activities is to be considered; but the incomes of servants and paying guests are not to be taken into account.

In rural areas, a household will belong to any one of the following five household types:

self-employed in non-agriculture (SENA)
 agricultural labour (AL)
 other labour (OL)
 self-employed in agriculture (SEA)
 others (OTH)

For urban areas, the household types are:

self-employed (SE), regular wage/salary earning (RWS),
 casual labour (CL),
 others (OTH).

Procedure for determining household type in rural sector: For a rural household, if a single source (among the five sources of income listed above) contributes 50% or more of the household's income from economic activities during the last 365 days, it will be assigned the type corresponding to that source.

For a household to be classified as 'agricultural labour' (AL) or 'self-employed in agriculture' (SEA) its income from that source must be 50% or more of its total income. If there is no such source yielding 50% or more of the household's total income, it will be assigned one of the remaining types (SENA, OL or OTH) according to the following procedure. To be classified as self-employed in non-agriculture (SENA), the household's income from that source must be greater than its income from rural labour (all wage-paid manual labour) as well as that from all other economic activities put together (a three-way division is to be considered here).

A household not assigned one of the types SENA, AL or SEA will be classified as other labour (OL) if its income from rural labour (all wage-paid manual labour) is greater than that from self-employment as well as that from other economic activities (again a three-way division). All other households will be classified under "others" (OTH).

For urban areas the different urban types correspond to four sources of household income, unlike the rural sector where five sources are considered. An urban household will be assigned the type SE, RWS, CL or OTH corresponding to the major source of its income from economic activities during the last 365 days. A household which does not have any income from economic activities will be classified under "others" (OTH).

For the rural areas, the selected household will be assigned appropriate type code out of the following five different household type codes:

self-employed in non-agriculture ... 1
 self-employed in agriculture 4
 agricultural labour 2
 others 9
 other labour 3

For urban areas, the household type codes are as follows:

self-employed 1
 casual labour 3
 regular wage/salary earning..... 2
 others 9

A household, which does not have any income from economic activities, will get type code 9 (others).

Religion code (Religion)

File: Block_3_Household characteristics

Overview

Religion code (Religion)

File: Block_3_Household characteristics

Type: Discrete
Format: character
Width: 1

Valid cases: 101723
Invalid: 0

Pre question

Religion (code): The religion of the household recorded against this item in code. If different members of the household claim to belong to different religions, the religion of the head of the household will be considered as the religion of the household.

Interviewer instructions

The religion of the household will be recorded against this item in codes. If different members of the household claim to belong to different religions, the religion of the head of the household will be considered as the religion of the household. The codes are:

Hinduism 1
Jainism 5
Islam 2
Buddhism 6
Christianity 3
Zoroastrianism ... 7
Sikhism 4
others 9

Social group code (Social_Group)

File: Block_3_Household characteristics

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 101722
Invalid: 0

Pre question

Social group (code): Whether or not the household belongs to Scheduled Tribes, Scheduled Castes or Other Backward Classes indicated against this item in terms of the specified codes which are:

scheduled tribe 1
scheduled caste 2
other backward classes ... 3
others 9

Interviewer instructions

Whether or not the household belongs to scheduled tribe, scheduled caste or other backward class will be indicated against this item in terms of the specified codes, which are:

scheduled tribe 1
scheduled caste 2
other backward classes ... 3
others 9

Those who do not come under any one of the first three social groups will be assigned code 9, meant to cover all other categories. In case different members belong to different social groups, the group to which the head of the household belongs will be considered as the 'social group' of the household.

Land owned in 0.000 hectares (Land_Owned)

File: Block_3_Household characteristics

Overview

Land owned in 0.000 hectares (Land_Owned)

File: Block_3_Household characteristics

Type: Continuous	Valid cases: 87637
Format: numeric	Invalid: 14087
Width: 8	Minimum: 0
Decimals: 0	Maximum: 38466
Range: 0-76893	Mean: 665.1
	Standard deviation: 1677.7

Description

A piece of land is considered 'owned by the household' if permanent heritable possession with or without the right to transfer the title is vested in a member or members of the household. Land held in owner-like possession under long-term lease or assignment is also considered as land owned. Thus, in determining the ownership of a plot of land, the following basic concepts are involved:

- Land owned by the household i.e., land on which the household has the right of permanent heritable possession with or without the right to transfer the title e.g., Pattadars, Bhumidars, Jenmons, Bhumiswamis, Rayat, Sithibans etc. A plot of land may be leased out to others by the owner without losing the right of permanent heritable possession.
- Land held under special conditions such as the holder does not possess the title of ownership but the right for long-term possession of the land (for example, land possessed under perpetual lease, hereditary tenure and long-term lease for 30 years or more) will be considered as being held under owner-like possession. In the states where land reform legislation has provided for full proprietorship to erstwhile tenants, they are to be considered as having owner-like possession, even if they have not paid the full compensation.
- Sometimes a plot may be possessed by a tribal in accordance with traditional tribal rights from local chieftains or village/district council. Again a plot may be occupied by a tenant for which the right of ownership vests in the community. In both the cases the tribal or other individual (tenant) will be taken as owner; for in all such cases, the holder has owner-like possession of the land in question.
- Frequently, the land possessed by the household is owned by the head of the family, who stays in a different town or village and therefore is not a member of the household. In such cases the land should be regarded as not owned but leased in by the household.

Pre question

Land owned: A piece of land is considered 'owned by the household' if permanent heritable possession with or without the right to transfer the title is vested in a member or members of the household. Land held in owner-like possession under long-term lease or assignment is also considered as land owned

Literal question

Land owned as on the date of survey (0.000 hectares)

Interviewer instructions

The land area, including homestead land, owned by the household as on the date of survey will be recorded in hectares in three places of decimal. Special care is to be taken so that for urban households land owned in rural areas and for rural households land owned in urban areas are not excluded. Separate provision has been kept for recording integral and decimal parts. For 'nil' entry a dash (-) may be recorded here. A piece of land is considered 'owned by the household' if permanent heritable possession with or without the right to transfer the title is vested in a member or members of the household. Land held in owner-like possession under long-term lease or assignment is also considered as land owned.

Land possessed in 0.000 hectares (Land_Possessed)

File: Block_3_Household characteristics

Overview

Type: Continuous	Valid cases: 97780
Format: numeric	Invalid: 3944
Width: 8	Minimum: 0
Decimals: 0	Maximum: 38466
Range: 0-76893	Mean: 571
	Standard deviation: 1568.4

Description

Land possessed in 0.000 hectares (Land_Possessed)

File: Block_3_Household characteristics

The area of land possessed will include land 'owned', 'leased in' and 'land neither owned nor leased in' (i.e. encroached) by the household but exclude land 'leased out'. Note that

- As regards lease, land given to others on rent or free by owner of the land without surrendering the right of permanent heritable title is defined as land leased out. Land leased in is defined as land taken by a household on rent or free without any right of permanent or heritable possession. The lease contract may be written or oral.
- For a piece of public/institutional land under the possession of the household, if the household lacks title of ownership and also does not have lease agreement for the use of land transacted, either verbally or in writing, such land will be considered as 'neither owned nor leased in'. Private land (i.e. land owned by the household sector) possessed by the household without title of ownership and occupancy right will not be considered in the 'otherwise possessed' category. All private land encroached upon by the household will be treated as leased-in land.
- Land possessed by the household members by virtue of family ties with the owner who stays elsewhere (forms a different household), is also to be treated as a case of land leased in. For such owners (those found to be living away from their family members who are in possession of the land), the land is to be recorded as owned and leased out.
- It may be noted that land owned, leased in, etc., by a particular household does not include the area of land owned, leased in, etc., by the servants/paying guests who are considered as normal members of the household. However, land owned/cultivated jointly by two or more households may be apportioned to determine the land owned/cultivated by any one of them.
- Land possessed by the households living in a block of flats is to be calculated by apportioning the total area occupied by the building among the households in proportion to the size of the flats.

Pre question

The area of land possessed will include land 'owned', 'leased in' and 'land neither owned nor leased in' (i.e. encroached) by the household but exclude land 'leased out'.

Literal question

Land possessed as on the date of survey (0.000 hectares)

Interviewer instructions

Land possessed is given by land owned (including land under 'owner like possession') + land leased in - land leased out + land held by the household but neither owned nor leased in (e.g., encroached land). The land area possessed by the household as on the date of survey will be recorded in hectares in three places of decimal. Separate provision has been kept for recording integral and decimal parts. For 'nil' entry a dash (-) may be recorded here.

Land cultivated including orchard and plantation during july'2008 - june'2009 in 0.000 hectares (Land_Cultivated)

File: Block_3_Household characteristics

Overview

Type: Continuous	Valid cases: 39966
Format: numeric	Invalid: 61758
Width: 8	Minimum: 0
Decimals: 0	Maximum: 38446
Range: 0-60705	Mean: 1179
	Standard deviation: 2069.1

Description

Land cultivated is defined as the net sown area (area sown with field crops and area under orchards and plantations counting an area only once in an agricultural year) during the agricultural year. Land cultivated may be from the land 'owned', 'land leased in' or from 'land otherwise possessed (neither owned nor leased in)'.

Pre question

Land cultivated: Land cultivated is defined as the net sown area (area sown with field crops and area under orchards and plantations counting an area only once in an agricultural year) during the agricultural year.

Literal question

Land cultivated (including orchard and plantation) during July 2008 - June 2009 (0.000 hectares)

Interviewer instructions

Land cultivated including orchard and plantation during july'2008 - june'2009 in 0.000 hectares (Land_Cultivated)

File: Block_3_Household characteristics

Land cultivated is defined as net sown area (areas sown with field crops and area under orchards and plantations counting an area only once in an agricultural year) during the agricultural year 2008-09, i.e., July 2008 to June 2009. Land cultivated (including orchard and plantation) during the agricultural year 2008-2009, i.e., July 2008 to June 2009 will be recorded against this item. Land cultivated may be from the land 'owned', 'land leased-in' or from 'land neither owned nor leased-in'. It will be recorded against item 9 in hectares in three places of decimal. Separate provision has been kept for recording integral and decimal parts. For 'nil' entry a dash (-) may be recorded here.

Household has MGNREG(Mahatma Gandhi National Rural Employment Guarantee) job card ? (NREG_Job_Card)

File: Block_3_Household characteristics

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 59700

Invalid: 0

Description

Mahatma Gandhi National Rural Employment Guarantee (MGNREG)

Pre question

Whether the household has MGNREG job card?: Under the provisions of the MGNREG Act, the Gram Panchayat is to issue job cards to every registered household. The Photographs of the adult members ("adult" means a person who has completed his eighteenth years of age) who are applicants are attached to the job cards. The job cards shall be valid for a period of five years and will have provision for the addition/deletion of members eligible for work. If name of at least one member of the sample household is listed in any job card, entry will be 1, else entry 2 will be recorded.

Literal question

Whether the household has NREG job card (yes-1, no-2) ?

Interviewer instructions

Under the provisions of the NREGA, the Gram Panchayat is to issue job cards to every registered household. The Photographs of the adult members ("adult" means a person who has completed his eighteenth years of age) who are applicants have to be attached to the job cards. The application for registration may be given on plain paper to the local Gram Panchayat. It should contain names of those adult members of the household who are willing to do unskilled manual work. The job cards shall be valid for a period of five years and will have provision for the addition/deletion of members eligible for work. If the household has a NREGA job card, entry will be 1 in this item, otherwise entry will be 2.

Number of MGNREG job cards issued to the household (No_NREG_Card)

Pre question

Number of MGNREG job cards issued to the household: For the households with MGNREG job card(s), information on number of job card(s) issued to the household till the date of survey will be collected.

(Saving_Bank_Held_by_any_member)

File: Block_3_Household characteristics

Overview

(Saving_Bank_Held_by_any_member)

File: Block_3_Household characteristics

Type: Discrete
Format: character
Width: 1

Valid cases: 21984
Invalid: 0

Description

Savings bank account can be opened either as an individual account or a joint account. The savings bank provides for cheque facility also. In the recurring deposit account, deposit should be made every month and default fee is chargeable for delayed deposit. The recurring deposit has a provision for premature closure on completion of three years after opening the account. Monthly Income Scheme (MIS) is viewed as safe and sure way to get a regular monthly income. This scheme is specially suited for retired employees/ senior citizens or any one with high sum for investment. The maturity period for MIS is six years. MIS has provision for auto credit facility to savings bank account. Only one public provident fund (PPF) account can be opened in the name of a person. Deposits in PPF account qualify for Income Tax rebate subject to a maximum limit of Rs. 70,000. The maturity period of the National Savings Certificate (NSC) is 6 years. No premature encashment of NSC is permitted in the normal course. However premature encashment of NSC can be allowed after the expiry of three years from the date of purchase of certificate. A single time deposit account or joint time deposit account can be opened for 1 year, 2 year, 3 year and 5 year period. 2 year, 3 year and 5 year time deposit accounts can be closed after one year at a discount. Money doubles in 8 years and 7 months for kisan vikas patra and it has a provision for premature encashment. The Senior Citizens Savings Scheme (SCSS) is a new avenue of investment and return for Senior Citizen. The account may be opened by an individual, (i) who has attained age of 60 years or above on the date of opening of the account, or (ii) who has attained the age 55 years or more but less than 60 years and has retired under a voluntary retirement scheme or a special voluntary retirement scheme on the date of opening of the account within three months from the date of retirement. However, there is no age limit for the retired personnel of defence services. Under SCSS no withdrawal is permitted before the expiry of a period of five years from the date of opening of the account and the depositor may extend the account for a further period of 3 years. Premature closure of account is permitted after deduction at specified rates.

Pre question

is any member of the household the holder of post office account (yes-1, no-2, don't know-9) and number of such accounts in the household as on the date of survey
[in items 14 to 17]

Literal question

Whether held savings bank account number by any member ?

Interviewer instructions

In items 14 to 17 of Block-3 (i.e Household characteristics) of the current schedule-10, information will be collected on whether any member(s) of the household is a holder of specified Post Office account(s) or savings instruments of Department of Post, Government of India, and if any member(s) of the household is a holder of specified Post Office account(s), number of such accounts held by all the members of the household as on the date of survey will be recorded. The specified accounts for which information will be collected are:

- i) saving bank account,
- ii) recurring deposit account,
- iii) monthly income account, and
- iv) any other accounts or savings instruments, such as public provident fund account, national savings certificate, kisan vikas patra, time deposit, senior citizens savings scheme, etc.

For each type of account listed against items 14 to 17, two columns have been provided. In the first column, information on whether any member of the household has the specified account will be recorded. If any household member has the specified account entry will be 1 and entry will be 2 if no member of the household has the specified account. On the other hand, if the informant reports that he/she does not know whether any member of the household has the specified post office account entry will be 9 against that item. For the item(s) with entry 1, i.e., if any household member is holding the specific type of account, the number of such accounts held by all the household members will be recorded in the next column against that item. It may be noted that in item 17, besides the types of accounts listed in items 14 to 16, information will be recorded for any other type of accounts or savings instruments

General Education of Member (General_Education)

File: Block_4_Demographic particulars of household members

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 456362
Invalid: 0

Pre question

Educational level: Information on the highest level of education successfully completed by each member of the household considering his/ her all general/ technical/ vocational educational level recorded in terms of codes

not literate 01
 literate without formal schooling:
 EGS/NFEC/AEC..... 02
 TLC..... 03
 others..... 04
 literate:
 below primary 05
 primary 06
 middle 07
 secondary..... 08
 higher secondary 10
 diploma/certificate course 11
 graduate..... 12
 postgraduate and above..... 13

Interviewer instructions

In column (7) of block-4(schedule-10) , the highest level of education successfully completed by the members of the household considering general/ technical/ vocational education will be recorded in codes which are given below:

not literate -01,
 Literate without formal schooling:
 EGS/NFEC/ AEC -02,
 TLC -03,
 others -04;
 Literate:
 below primary -05,
 primary -06,
 middle -07,
 secondary -08,
 higher secondary -10,
 diploma/certificate course -11,
 graduate -12,
 postgraduate and above -13.

A person who can both read and write a simple message with understanding in at least one language is to be considered literate. Those who are not able to do so, are to be considered not literate and will be assigned code 01. Some persons achieve literacy by attending Non-formal Education Courses (NFEC) or Adult Education Centres (AEC) or by attending primary schools created under Education Guarantee Scheme (EGS). Such persons will be given code 02. Persons who have become literate through attending Total Literacy Campaign (TLC) will be given code 03. Persons who are literate through means other than formal schooling or the two enumerated above will be given code 04. Those, who are by definition literate through formal schooling but are yet to pass primary standard examination will be assigned code 05. Similarly codes 06, 07, 08, and 10 to 13 will be assigned to those who have passed the appropriate levels. The criteria for deciding primary, middle, secondary, etc., levels will be that followed in the concerned states/union territories. Persons who have attained proficiency in Oriental languages (e.g., Sanskrit, Persian, etc.) through formal but not through the general type of education will be classified appropriately at the equivalent level of general education standard. For them who have completed some diploma or certificate course in general or technical education, which is equivalent to below graduation level, code 11 will be assigned. Whereas, code 12 will be recorded for them who have obtained degree or diploma or certificate in general or technical education, which is equivalent to graduation level. Similarly, code 13 will be assigned for them who have obtained degree or diploma or certificate in general or technical education, which is equivalent to post-graduation level and above.

Technical Education (Technical_Education)

File: Block_4_Demographic particulars of household members

Technical Education (Technical_Education)

File: Block_4_Demographic particulars of household members

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 456813
Invalid: 0

Pre question

Technical education standard achieved by the members of the household recorded in one of the following codes:

no technical education 01
technical degree in agriculture /
engineering / technology / medicine etc. 02
diploma or certificate (below graduate level) in:
agriculture 03
engineering/technology..... 04
medicine..... 05
crafts 06
other subjects 07
diploma or certificate (graduate and above level) in:
agriculture..... 08
engineering/technology..... 09
medicine 10
crafts..... 11
other subjects... 12

Interviewer instructions

Technical education standard achieved by the members of the household will be recorded in one of the following codes:

no technical education -01,
technical degree in agriculture/ engineering/ technology/ medicine, etc. -02,
diploma or certificate (below graduate level) in: agriculture -03, engineering/ technology -04, medicine -05, crafts -06, other
subjects -07;
diploma or certificate (graduate and above level) in: agriculture -08, engineering/ technology -09, medicine -10, crafts -11,
other subjects -12.

Technical diploma or certificate in 'other subjects' will cover diploma or certificate in management, applied arts, etc. If more than one of the codes 03 to 07 are applicable, the code indicating the diploma/ certificate last received will be considered. Similar will be the treatment when more than one of the codes 08 to 12 are applicable for a person. It may be noted that the technical certificate/ diploma obtained by the person need not necessarily be recognised by the Government.

Status of current attendance in educational institution

(Status_of_Current_Attendance)

File: Block_4_Demographic particulars of household members

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 251987
Invalid: 0

Pre question

for persons of age below 30 years, current attendance in educational institution

Literal question

status of current attendance (code)

Interviewer instructions

Status of current attendance in educational institution (Status_of_Current_Attendance)

File: Block_4_Demographic particulars of household members

It will be first ascertained if the person is currently attending any educational institutions (government or private) or not. Persons who are registered for any regular correspondence courses or distance education courses for a stipulated period at the end of which, are allowed to appear in the examination for the course, will also be considered as 'currently attending'. Persons who are awaiting results will be considered as 'currently attending' and the appropriate code for the level for which they have appeared in the examinations will be recorded. Persons who are not currently attending any educational institutions, reason for not attending will be ascertained and will be given any of the codes 01 to 05 if they have never attended and 11 to 15, if they ever attended but currently not attending. For those who are found 'currently attending', the course of study pursued by them will be further ascertained and codes will be assigned depending on the course of study pursued by them. For persons attending more than one course, the one which is of full time will be considered for recording current attendance, in case only one of the courses is full time. In case more than one of the courses are full time, the one, which is of higher level will be considered for current attendance. If the full time courses are of same level, the one with longer duration will be considered. If the person is pursuing only part time courses, the course to be considered for current attendance will be determined in the similar way as is done for full time course.

The code structure for status of current attendance is as follows:

currently not attending:

never attended: school too far -01, to supplement household income -02, education not considered necessary -03, to attend domestic chores -04, others -05;

ever attended but currently not attending: school too far -11, to supplement household income -12, education not considered necessary -13, to attend domestic chores -14, others -15;

currently attending in: EGS/ NFEC/ AEC -21, TLC -22, pre-primary (nursery/ Kinder garten, etc.) -23, primary (class I to IV/ V) -24, middle -25, secondary-26, higher secondary-27, graduate in: agriculture -28, engineering/ technology -29, medicine -30, other subjects -31; post graduate and above -32, diploma or certificate (below graduate level) in: agriculture -33, engineering/ technology -34, medicine -35, crafts -36, other subjects -37; diploma or certificate (graduate level) in: agriculture -38, engineering/ technology -39, medicine -40, crafts -41, other subjects -42; diploma or certificate in post graduate and above level- 43.

Type of educational institution (Type_of_Educationa_Institution)

File: Block_4_Demographic particulars of household members

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 135569
Invalid: 0

Pre question

For persons of age below 30 years, current attendance in educational institution with codes 21-43 in col. 9 meant for status of current attendance

Literal question

type of institution (code)

Interviewer instructions

The type of institution refers to the type of management by which the institution is run. It may be government, local body, or private body receiving government aid. Thus, the type may be (a) Government, (b) Local body, (c) Private aided or (d) Private unaided. All schools/ institutions run by the State, Central Government, Public Sector Undertakings or Autonomous Organisations, which are completely financed by the Government will be treated as government institutions. Schools/ institutions where some intervention of government is in the management and are mainly financed by the government will also be treated as government institutions. All institutions run by municipal corporations, municipal committees, notified area committees, zilla parishads, panchayat samitis, cantonment boards, etc., will be treated as local body institutions. Private and aided institution is one, which is run by an individual or a private organisation and receives maintenance grant partly or fully from the Government or local body. Private and unaided institution is one that is managed by an individual or a private organisation and not receiving maintenance grant either from a Government or a local body.

Relevant codes to be given are:

government -1, local body -2, private and aided -3, private and unaided -4, not known -5.

Whether currently registered with employment exchange (Registered_with_Emp_Exchange) File: Block_4_Demographic particulars of household members

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 234844
Invalid: 0

Pre question

for persons of age 15 to 45 years,

Literal question

whether currently
registered
with
employment
exchange (yes-1, no-2)

Interviewer instructions

Currently registered with employment exchange: For persons of age 15 to 45 years , it is to be ascertained whether or not they are currently on the live register of the employment exchange. For a person to be currently on the live register, he or she should renew his/her registration before it lapses, i.e., when the renewal becomes due. The period specified for renewal varies from state to state and also perhaps, from one employment category to the other. The investigator, therefore, should ascertain from some knowledgeable sources, the period specified for such renewal in the particular region where he has to carry out the field work. With this background information, the investigator should find out when the person has registered in the employment exchange, whether he has renewed the registration, etc., and thus determine whether or not he or she was currently on the live register of the employment exchange. If the name of the person is in the live register of the employment exchange, code 1 and if not, code 2 will be recorded in this column.

Whether receiving or received any vocational training (Vocational_Training) File: Block_4_Demographic particulars of household members

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 288309
Invalid: 0

Description

Whether receiving or received any vocational training (Vocational Training)

File: Block_4_Demographic particulars of household members

Vocational Training: A vocational training may broadly be defined as a training, which prepares an individual for a specific vocation or occupation. The main objective of vocational education and training is to prepare persons, especially the youth, for the world of work and make them employable for a broad range of occupations in various industries and other economic sectors. It aims at imparting training to persons in very specific fields through providing significant 'hands on' experience in acquiring necessary skill, which will make them employable or create for them opportunities of self-employment. Thus, the essential feature of the vocational training is that it lays more emphasis on development of skill in a specific vocation or trade rather than building knowledge. Mere possession of a skill, which neither creates opportunities for self-employment nor makes a person employable, will not be considered as having vocational training.

Formal Vocational Training: The vocational training that takes place in education and training institutions which follow a structured training programme and lead to recognised certificates, diplomas or degrees, will be treated as formal one. But when the vocational training neither follows a structured programme nor the training lead to recognised certificates, diplomas or degrees, those training programmes will be treated as non-formal vocational training. For the purpose of survey, formal vocational training will have the following characteristics:

- i) structured training programme towards a particular skill,
- ii) certificate/diploma/degree received should have a recognition by State/Central Government, Public Sector and other reputed concerns,

By structured training programme, it is meant that:

- (a) the training programme should have a definite title with prescribed syllabus and curriculum and a specified duration of the training, and
- (b) the training should have some entry level eligibility in terms of education and age.

Non-formal Vocational Training:

(a) **Hereditary:** The expertise in a vocation or trade is sometimes acquired by the succeeding generations from the other members of the households, generally the ancestors, through gradual exposures to such works as are involved in carrying out the profession by their ancestors. The expertise gained through significant 'hands-on' experience enables the individual to take up activities in self-employment capacity or makes him employable. Acquiring such marketable expertise by one, which enables him/her to carry out the trade or occupation of their ancestors over generations, may also be considered, for the purpose of survey, to have received 'non-formal' vocational training and that through 'hereditary' sources.

(b) **Self-learning:** The expertise in a vocation or trade when acquired by a person through his/her own effort, without any training under any person or organisation, may be considered to have acquired the non-formal vocational training through 'self-learning'. For example, a person who has learnt photography on his own effort will be considered to have acquired the non-formal vocational training through 'self-learning'.

(c) **Learning on the job:** The expertise acquired by a person while in employment (current and/or past), either through informal training by the employer or organisation or through the exposure to the type of job that he/she is/was performing, may be considered to have acquired the non-formal vocational training through 'learning on the job'. Note that if a person is provided with formal training in a vocation or trade even by the employer or organisation, while in employment, he will be considered to have received 'formal' vocational training.

(d) **Other:** The 'other' sources may also include the cases where the expertise for a vocation or trade has been developed even from the household members or ancestors, provided the said vocation or trade is different from the one relating to their ancestors. Thus a person may learn tailoring work from a master tailor or a person may learn book-binding work from a printing press. All such expertise will be considered to have received non-formal vocational training through 'other' sources.

Pre question

Whether receiving/received any vocational training: Information on whether the household member is receiving or has received any vocational training

Literal question

whether receiving/
received
any
vocational training (code)

Interviewer instructions

Whether receiving or received any vocational training (Vocational_Training)

File: Block_4_Demographic particulars of household members

Particulars of vocational training will be used to record particulars of vocational training received/ being received by persons of age 15 to 59 years.

Information on whether the household member is receiving or has received any vocational training will be collected in codes given below:

yes: receiving formal vocational training -1;
 received vocational training: formal -2,
 non-formal: hereditary-3,
 self-learning-4,
 learning on the job-5,
 others -6;
 did not receive any vocational training -7.

Only those who are currently receiving 'formal vocational training' will be given code 1 and if the vocational training, which is formal, has already been received, i.e., if the training course is successfully completed, then code will be 2. Codes 3 to 6 relate to non-formal vocational training. Code 3 will be applicable for those who have received 'hereditary' non-formal vocational trainings and code 4 for those who have received non-formal vocational trainings through 'self-learning'. Persons who have received non-formal vocational training through 'learning on the job' will be given code 5. All other cases of non-formal vocational training received will be assigned code 6. Persons who have failed in formal vocational training after completion of the full duration of the course will also be given code 6 provided they have acquired competency through this training to employ themselves as wage salary employee or self-employed. Note that if one has already received some vocational training, formal or informal, and also currently receiving some formal vocational training, then the vocational training already received will be recorded for him/her. In case, he/she has received more than one vocational training, then the one among the applicable codes that appears first will be recorded.

Field of vocational training (Field_of_Training)

Field of training (code)	
Post question	
for persons of age 15 to 59 years, with codes 1 & 2 in col. 12 (i.e	
Interviewer instructions	

Field of vocational training (Field_of_Training)

File: Block_4_Demographic particulars of household members

Field of training in this column refers to the broad area/ trade, say, 'Mechanical engineering trades', 'Electrical and electronic trades', 'Leather related work', etc., on which the formal vocational training has been received/being received by the household member. 'Field of training' will be recorded in terms of 2 digit codes.

For a formal vocational training, if the 'field of training' is not covered by any of the codes 01 to 21, code 99 will be assigned to that field of training. It may be noted that under a particular broad area of the training stated above, an individual may have received the vocational training for development of skill in specific area(s). For example, a vocational training may develop skill in specific area(s) like 'blacksmithy', 'fitter', etc., under the broad area 'Mechanical engineering trades' or in the specific area 'Cutting and Tailoring' under the broad area 'Textile related work' or in the specific area 'Cane & Bamboo work' under the broad area 'Artisan/ craftsman/ handicraft and cottage based production work'. Specific areas and broad areas of the vocational training, in most cases, will be understood from the name of trade/training course.

To facilitate the collection of data on 'field of training', an indicative list of specific areas on which one can receive the vocational training and the broad area covering the specific area(s) is given in Annexure 2. There may be cases where broad area of training can be understood from the specific area of training but the specific area is not covered under any of the broad areas in the list given in Annexure 2. For a person when more than one of the codes are applicable, last training received will be considered for giving code for 'field of training'.

Some instances for recording field of training are being illustrated with the help of the following examples:

1. A person has received a vocational training for which the name of the training course is 'Fitter'. In this case the specific area of the training is 'Fitter' and the broad area will be 'Mechanical engineering trades'. In this case, the entry against 'field of training' will be the code for the broad area of training 'Mechanical engineering trades', i.e., 01.

2. For the vocational training course 'Cutting and Tailoring', the specific area is 'Cutting and Tailoring', and the broad area will be 'Textile related work'. In this case, the entry against 'field of training' will be the code for the broad area of training 'Textile related work', i.e., 07.

The codes for the field of training to be used for making entry in this column are given below:

mechanical engineering trades -01, electrical and electronic engineering trades -02, computer trades -03, civil engineering and building construction related works -04, chemical engineering trades -05, leather related work -06, textile related work -07, catering, nutrition, hotels and restaurant related work -08, artisan/ craftsman/ handicraft and cottage based production work -09, creative arts/ artists -10, agriculture and crop production related skills and food preservation related work -11, non-crop based agricultural and other related activities -12, health and paramedical services related work -13, office and business related work -14, driving and motor mechanic work -15, beautician, hairdressing & related work -16, work related to tour operators/ travel managers -17, photography and related work -18, work related to childcare, nutrition, pre-schools and crèche -19, journalism, mass communication and media related work -20, printing technology related work -21, other -99.

Registered in any MGNREG jobcard (MGNREG_jobcard)

Literal question	
duration of training (in weeks)	
Interviewer instructions	
Duration of the formal vocational training, in weeks, will be entered here. The stipulated duration that the training may take for successfully completing the course will be recorded for those who are receiving the training on the date of survey. In case, the duration of formal vocational training received/being received is in months or in years then it will be rounded off to the nearest week. For this purpose, one month will be considered as 4 weeks, three months will be considered as 13 weeks, 6 months will be considered as 26 weeks and one year will be considered as 52 weeks. If the duration of training is in terms of days then it will be converted to weeks and entry will be made in whole number	

Whether worked in MGNREG works Whether worked in MGNREG works
 Whether worked in MGNREG works (MGNREG_work)

Description

(Usual Principal Activity Status)

File: Block 5_1 Usual principal activity particulars of household members

Pre question

Usual principal activity, for codes 11-51 in col. 3 (i.e status code)

Interviewer instructions

For each of the members, the usual principal activity status will be recorded in this column. In the first instance, the broad usual principal activity of the person will be identified based on the various activities pursued by the person during the reference period of last 365 days adopting a 'relatively long time (or major time)' criterion, not necessarily for a continuous period. The broad usual principal activity status will be one of the three categories viz. 'employed' (working), 'unemployed' (available for work or 'not in labour force' (neither working nor available for work)). It is to be noted that in deciding this, only the period normally available in a day for pursuing various activities need to be considered, and not the 24 hours of a day.

The broad usual principal activity status will be obtained on the basis of a two stage dichotomous classification depending on the major time spent. Persons will be classified in the first stage into (i) those who are engaged in any economic activity (i.e. employed) and / or available for any economic activity (i.e., unemployed) and (ii) who are not engaged and also not available for any economic activity (i.e., not in labour force). Thus, the persons will be first classified as those in the labour force and those not in the labour force depending on in which status, out of these two, the person spent major part of the year. In the second stage, those who are found in the labour force will be further classified into working (i.e., engaged in economic activity or employed) and seeking and/or available for work (i.e., unemployed) based on the major time spent. Thus, we can obtain the broad usual principal status as one of the three viz. employed, unemployed and out of labour force. With the broad activity status identified for a person, detailed activity categories will be assigned on the basis of relatively longer time spent on a detailed activity. For example, suppose person A, in the example given above worked in household enterprises without hiring labour for 3 months and worked as casual labour for 2 months, then his usual principal activity status would be, worked in household enterprise (own-account worker).

The detailed usual principal status activity codes are as given below:

worked in h.h. enterprise (self-employed) own account worker -11, employer-12, worked as helper in h.h. enterprise (unpaid family worker) -21; worked as regular salaried/ wage employee -31, worked as casual wage labour: in public works -41, in other types of work -51; did not work but was seeking and/or available for work -81, attended educational institution -91, attended domestic duties only -92, attended domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed, etc.), sewing, tailoring, weaving, etc. for household use -93, renters, pensioners, remittance recipients, etc. -94, not able to work due to disability -95, others (including begging, prostitution, etc.) -97.

Some special cases for determining usual principal activity status are listed below:

(i) It is to be noted that availability for work being more of a status than an activity, a person being available for work may well be engaged in one or more of the activities denoted by codes 91 to 97. In all such cases except those engaged as students (code 91), persons will be categorised as 'unemployed' if he/she reports to be available for work for a relatively longer period, in spite of his/her being engaged simultaneously in a non-economic activity. But, if a person who is available for work is reported to have attended educational institution more or less regularly for a relatively longer period during the preceding 365 days, further probing as to whether he will give up the study if the job is available is to be made before considering him as 'unemployed'.

(ii) Again, it also needs to be emphasised that the procedure to be followed in ascertaining the activity status of a domestic servant who is a member of the employer's household is different from that adopted for other members of the household. It may be noted that engagement in domestic duties by such household members is not considered economic activity as defined for the survey. On the other hand, although a domestic servant staying in the employer's household and taking food from the common kitchen is, by definition, a member of the employer's household, he/she is also engaged in domestic duties in return for wages in cash and/or kind. Thus, as a special case, domestic duties pursued by a domestic servant will be considered as an economic activity and the activity status code as is applicable will be assigned to him/her.

(iii) Carpenters, masons, plumbers, etc., who move from place to place in search of work and carry out the work on a contract basis (not on wage basis) whenever work is available, will be considered as 'own-account worker'. But if such persons are working on a wage basis under a contractor, they will be considered as employee.

Some Important Clarifications for determining activity status:

- Production of primary goods for own consumption is considered as economic activity. It may be noted that 'production of agricultural goods for own consumption' covers all activities up to and including stages of thrashing and storing of produce.
- Engagement in domestic duties by a member of the household is not considered economic activity but the domestic duties performed by the domestic servant staying in the employer's household and taking food from the common kitchen and thereby being a member of the household is to be considered as an economic activity, as a special case. Activity status code 31 will be assigned to domestic servants.
- Free collection for sale' will be treated as self-employment. In the case of primary products in the agricultural sector, even if the products collected are not for sale but for household consumption, persons engaged in these activities will be considered as self-employed. If the products collected relate to agricultural sector, the NIC-2004 section will be 'A' and for other goods like rag, waste paper, tins, etc., the NIC-2004 section will be 'G'.
- A disabled person/pensioner will be considered as 'employed' according to usual principal status if he/she is engaged in an economic activity for a relatively long time during the reference year. He/she will be treated as unemployed if reported to be seeking/available for work for a relatively long time during the reference year, and not as a disabled person/pensioner.
- Any person carrying out domestic duty for major part of the day and additionally doing some economic activity for three or four hours in a day, both on a regular basis, will be considered as engaged in domestic duties according to the usual principal status. Similarly, a pensioner/ student doing agricultural activities in household agricultural enterprise for three or four hours in a day, his usual principal activity status will be pensioner/ student, and not worker in the usual principal status. However, according to the usual status considering principal status and subsidiary status together, they will be considered as worker.
- Sometimes it is found that a regular student is currently on live register of the Employment Exchange and such a situation creates confusion in deciding his usual activity status. Normally, the person will be categorised as a student. But before categorising him/her as a student, further probes should be made as to whether he/she will give up his/her studies the moment he/she gets a job. If it is found that he/she will leave his studies to take up the type of job for which he/she has registered, he/she will be considered as unemployed.
- Current weekly activity status of a student/ disabled person/ pensioner/person engaged in domestic duties will be 'employed' if he/she is engaged in an economic activity for at least 1 hour on any day during the reference week (i.e. at least 0.5 intensity against any of the activity status codes 11 to 72 in column 14 of block 5.3).
- A Government servant who is on extraordinary leave or suspended, his/her usual principal status code will be 31. Other economic activities pursued by him/her during the period will not be considered for determining his usual principal activity status but those activities will be considered as subsidiary economic activities.
- According to the current status approach, for a regular salaried/wage employee, activity status code 31 is to be given on holidays and code 71/72 for the days he is on leave depending on the reason. Additional economic activity carried out on these days by a regular wage/ salaried employee will not be considered to determine his current daily status, e.g., for a Govt. employee who is on leave for 1 week and does agricultural activity during that week, his current daily status code for all the 7 days of the week will be 72.
- According to the current status approach, for a self-employed person, activity status code 11 is to be given on holidays or weekly-off days and code 61 or 62 for the days he is on leave depending on the reason.
- If a casual worker works for 4 days in a week and remains without work for the other 3 days, then for the days he did not work, his current activity status codes will be 81, 82 or any of 91 to 98 depending upon the situation on those days.
- For regular salaried/wage employees on leave or holiday, the 'operation' will relate to their respective function in the work or job from which he is temporarily off in view of his taking leave or holiday. Similarly for persons categorised 'self-employed' (status codes 11, 12 & 21) if they are not at work on a particular day in spite of their having work on that day, operation to be recorded will relate to the work they would have done if they had not enjoyed leisure on that day.
- If a person performs 3 economic activities in a day then number of hours spent on each activity is to be considered to assign intensity for the different activities.
 - If only 1 of the activities is done for 4 hours or more, 1.0 intensity is to be given for that activity.
 - If any of the 2 activities are done for 4 hours or more, then 0.5 intensity is to be given to each of these two activities.
 - If all activities are done for more than 4 hours then two of the activities by major time criteria (MTC) will be given intensity 0.5.
 - If all the activities are performed for less than 4 hours but the total is more than 4 hours then 2 activities by MTC will be assigned 0.5 intensity.
 - If all the activities are performed for less than 4 hours and the total is less than 4 hours but more than 1 hour, then 1 activity by MTC will be assigned 0.5 intensity.
 - If a person is engaged in 2 economic activities each of less than 1 hour duration but the total duration is 1 to 4 hours, then one of the activities will be assigned intensity 0.5 by MTC.
- When a female casual labourer reports that she is not able to work due to pregnancy, she will be treated as 'casual labour not working due to sickness' and will be given current activity code 98.
- Exchange labour will be considered as 'self-employed'. But a regular employee, on holiday or while on leave, working as 'exchange labour', will be assigned status code 31/71/72. On the other hand, a casual labourer working as 'exchange labour' on some days will be categorised as 'self-employed' for those days.
- The 'meal carriers' (who collect meals from respective households and delivers the same at various offices, 'night watchmen', etc., are normally employed by a group of households on a regular monthly wage. The 'activity status' of such workers will be the same as that of maid servant/maile servant, etc., i.e., 'wage/salaried employee'.
- Carpenters, masons, plumbers, etc., who in their professional rounds, move from place to place in search of work and carry out the work on contract basis whenever work is available will be considered as own account worker. But if such persons are working on a wage basis or so under a contractor or for a household, they will be considered as regular salaried/wage employee.
- Unpaid apprentices will be treated as 'students' while paid apprentices will be treated as employees.
- Persons under 'paid lay-off' will be considered 'employed'. Those under 'unpaid lay off' will not be considered as employed and they will be considered 'unemployed' if they are seeking and/or available for work. Persons who are under lay-off without any payment from the establishment but gets some benefits from other sources because of the lay-off will not be considered as worker.
- MPs and MLAs will be considered as regular salaried worker. Party functionaries not getting salaries are not to be considered as economically active if they are not engaged in any other economic activity.
- A porter/ coolie in their professional rounds in search of jobs contracts with several clients for the amount of remuneration depending upon the quantity and volume of goods to be carried for a given distance. Thus in a day, he/ she, in fact, serves several clients and generally, possess some tangible assets to perform these activities. Moreover, they decide the scale of operation of their own. In view of this, a porter/ coolie may be considered as self-employed and may be given the industry code 9309 as per NIC-2004.
- Renting of machinery and equipment, building for residential or non-residential purposes is considered as economic activity, if those are performed as a business activity, for which substantial amount of time is spent.

Pre question

Usual principal activity, for codes 11-51 in col. 3 (i.e status code)

Interviewer instructions

(Usual Principal Activity_NIC2008)

File: Block_5_1_Usual principal activity particulars of household members

Principal industry-occupation: Columns (4) to (6) of the schedule-10, block-5.1, will be filled-in for those who are 'working', i.e., those with any one of codes 11, 12, 21, 31, 41, or 51 in column (3) (i.e. activity status). The description of the industry-occupation relevant to the type of economic activity pursued by the person in the status recorded in column (3) of block-5.1 will be given in column (4) of block-5.1. The corresponding 5-digit industry code (NIC-2004) and the 3-digit occupation code (NCO-2004) will be entered in columns (5) and (6), respectively. In case, two or more industry-occupation combinations corresponding to the status code given in column (3) have been reported by a person, the principal industry-occupation will be the one in which relatively more time has been spent during the preceding 365 days by the person.

To identify certain category of workers separately, NIC-2004 industry class code 9500 (Division 95) has been split, for the purpose of the survey, into the following sub-classes as given below:

Division 95: ACTIVITIES OF PRIVATE HOUSEHOLDS AS EMPLOYERS OF DOMESTIC STAFF

housemaid/servant	95001
cook	95002
gardener	95003
gatekeeper/chowkidar/watchman	95004
governess/baby-sitter	95005
tutor	95006
.....	95007
others	95009

These additional codes are to be used, wherever necessary, in recording five digit industry codes in column 5 of block 5.1. In assigning the industry code under Division 95, it should be kept in mind that the work is to be performed predominantly in the premises of the household irrespective of whether it is performed in one or more than one household. If services provided by the individuals to the household originate and terminate in the same household, they will be classified under Division 95.

For example, all persons who collect electric bills from the households for payment, who provide potable water in the container made available by the household, who collect grocery items from the shops/market as per the list of items supplied by the household, who give tuition to the members of the household at the residence of the household members, etc., will be classified under this division. On the other hand, if the households avail these services by approaching such persons (providing these services) in their establishment/house, then those services will not be classified under Division 95. They will be classified under appropriate division. For example, for a person giving tuition in his coaching center or in his own house, his activity will be classified under NIC 80902 or NIC 80903, respectively. Similarly, a person who is supplying potable water to one or more households (and uses his own container - which is his asset) will be classified under NIC 93093. Note that the persons classified under NIC division 95 in the above example will be considered as 'wage earners/employees', while those not classified under division 95 will be considered as 'self-employed'.

It may be noted that in determining the usual principal status of a person, it is not essential to consider the time disposition in respect of various activities pursued by the person on a day-to-day basis - which is generally done in the case of current status. What is important is that the activity, which a person usually performed or the status in which the person usually belonged for a longer period during the reference period, is to be assessed. In order to determine the usual principal status, the dominant activity of the individual that kept the person engaged for a longer period during the reference period, may be identified. This may largely be understood by the functional role of the individual in daily life or normal attachment of the individual to an activity or the activity situation in which an individual disposes himself or herself. This may even be understood by the response to the question generally asked 'what he/she normally does or did during the reference period?' such as, teaching or housekeeping or tutoring others or studying or farming or renting or prostitution. For example, the dominant activity of a person whose normal attachment is with household chores, even though gives tuition for some time - maybe for three/ four hours in a day, will be considered as performing 'domestic duties' or, that of a boy who disposes himself as a student though performs some work activity regularly will be considered as 'student'. Note that the dominant activity of a person during the reference period is determined irrespective of the activity situation on a specific point of time (say, 1 day) or during a short period of time (say, 1 week).

There may be several situations for a person during the reference period. The individual might be engaged in a single dominant activity throughout the year or, the dominant activity might be carried out with other activities simultaneously or in succession or in alternation. In the first situation, the dominant activity for the person, which did not change during the reference period, will determine his/her usual principal activity status. In the second situation, where the dominant activity changed, the usual principal status for the person will be determined by the activity that prevailed for a longer period for the person during the reference period, that is, by major time criteria. For example, the dominant activity situation for a person may be employed through out the year, with or without any other activity carried out simultaneously, and accordingly, his/her usual principal activity status will be assigned as employed. On the other hand, the dominant activity situation for a person may be out side the labour force for some period, unemployed for some period and employed for the remaining period during the year. The broad usual principal status of the person will be the activity that prevailed for the person for a longer period during the year, which is obtained following a two-stage dichotomous classification depending on the major time spent on the different broad activities. However, if a person who did any economic activity for a period of 30 days or more, he/she will be considered as worker either in the principal status or in the subsidiary status depending upon the situation during reference period.

Description

Whether engaged in any work in a subsidiary capacity (yes-1, no-2): For each member of the household listed in this block, it has to be ascertained whether he/she worked in a subsidiary capacity during the 365 days preceding the date of survey or in other words if he had any subsidiary economic status. A person considered to have worked in the subsidiary capacity if he/she has worked for a minimum period of 30 days, not necessarily for a continuous period, during the last 365 days, and for them code 1 recorded in this column. Otherwise, code will be 2

Pre question

Whether engaged in any work in subsidiary capacity (yes-1, no-2) ?

Interviewer instructions

(Whether_in_Subsiary_Activity)

File: Block_5_1_Usual principal activity particulars of household members

Whether engaged in any work in a subsidiary capacity (yes-1, no-2): For each member of the household listed in this block, it has to be ascertained whether he/she worked in a subsidiary capacity during the 365 days preceding the date of survey or in other words if he had any subsidiary economic status. A person will be considered to have worked in the subsidiary capacity if he/she has worked for a minimum period of 30 days, not necessarily for a continuous period, during the last 365 days, and for them code 1 will be recorded in this column. Otherwise, code will be 2.

The identification of those working in a subsidiary capacity will be done as follows:

(i) For example, a person categorised as working and assigned the usual principal activity status as own account worker may also be engaged for a relatively minor time, but not less than 30 days, during the reference year as casual wage labour. In such a case, he will be considered to have worked also in a subsidiary capacity, i.e., having a subsidiary economic status which is different from the principal economic status. A person may be own account worker in trading for a relatively longer period and simultaneously also engaged in agricultural production for a relatively minor time, say for at least 30 days. In such a case, the usual principal status will be own account worker in trade and usual subsidiary economic status will be own account worker in agriculture.

(ii) Similarly, persons categorised as 'unemployed' or 'not in labour force' on the basis of relatively long time criterion might have pursued some economic activity for relatively minor time, say for at least 30 days, during the year (as in the case of persons 'B', 'D' and 'F' in the example cited earlier). In such cases, they will be treated as having subsidiary economic activity and code 1 will be recorded in column (7).

It may be stated again that engagement in work in subsidiary capacity may arise out of two situations:

(i) a person may be engaged in a relatively longer period during the 365 days in economic (non-economic activity) and for a relatively minor period, which is not less than 30 days, in another economic activity (any economic activity). 30 days of work need not necessarily be for a continuous period but may be distributed over the last 365 days.

(ii) a person may be pursuing an economic activity (non-economic activity) almost throughout the year in the principal status and also simultaneously pursuing another economic activity (any economic activity) for relatively shorter time in a subsidiary capacity. In such cases, since both the activities are being pursued throughout the year and hence the duration of both the activities are more than 30 days, the activity which is being pursued for a relatively shorter time will be considered as his/her subsidiary activity.

Differentiation between usual principal economic activity and usual subsidiary economic activity will be made by considering activity status and industry at 2-digit level of NIC-2004. Thus, while for a person with two or more economic activities pursued at different activity status, one of the economic activity will be considered as usual principal economic activity on the basis of major time criteria, another activity will be considered as usual subsidiary economic activity. On the other hand, if a person pursues two or more economic activities in the same activity status but if the industry at 2-digit level of NIC-2004 are different, then the person will be considered to have different usual principal and usual subsidiary economic activity.

Location of Workplace (Location_of_Workspace)

File: Block_5_1_Usual principal activity particulars of household members

Overview	
Type: Discrete	Valid cases: 107927
Format: character	Invalid: 0
Width: 2	
Description	

Location of Workplace (Location_of_Workspace)

File: Block_5_1_Usual principal activity particulars of household members

Location of workplace (code): The location of the workplace will be recorded in terms of code under this column. The detailed codes are:

description code

workplace in rural areas and located in:

own dwelling unit.....	10
structure attached to own dwelling unit.....	11
open area adjacent to own dwelling unit.....	12
detached structure adjacent to own dwelling unit.....	13
own enterprise/unit/office/shop but away from own dwelling.....	14
employer's dwelling unit.....	15
employer's enterprise/unit/office/shop but outside employer's dwelling	16
street with fixed location.....	17
construction site.....	18
others.....	19
workplace in urban areas and located in:	
own dwelling unit.....	20
structure attached to own dwelling unit.....	21
open area adjacent to own dwelling unit.....	22
detached structure adjacent to own dwelling unit.....	23
own enterprise/unit/office/shop but away from own dwelling.....	24
employer's dwelling unit	25
employer's enterprise/unit/office/shop but outside employer's dwelling.....	26
street with fixed location.....	27
construction site.....	28
others	29
no fixed workplace.....	99

Pre question

For persons with industry groups 012, 014, 015 and divisions 02 - 99 in col. 5(i.e industry-5-digit NIC_2008 code)

Literal question

Location of work place (code)

Interviewer instructions

The location of the workplace will be recorded in terms of code under this column. The detailed codes are:

workplace in rural areas and located in: own dwelling unit-10, structure attached to own dwelling unit-11, open area adjacent to own dwelling unit-12, detached structure adjacent to own dwelling unit- 13, own enterprise/unit/office/shop but away from own dwelling-14, employer's dwelling unit -15, employer's enterprise/unit/office/shop but outside employer's dwelling -16, street with fixed location-17, construction site-18, others -19; workplace in urban areas and located in: own dwelling unit-20, structure attached to own dwelling unit-21, open area adjacent to own dwelling unit-22, detached structure adjacent to own dwelling unit- 23, own enterprise/unit/office/shop but away from own dwelling-24, employer's dwelling unit -25, employer's enterprise/unit/office/shop but outside employer's dwelling -26, street with fixed location-27, construction site-28, others -29; no fixed workplace -99.

It may be noted that the location of the sample household (rural or urban) is not to be considered for entry in this column; location of the enterprise is to be ascertained and appropriate code is to be recorded. For the purpose of the survey, the term 'adjacent' area/structure will be restricted within homestead land only. For the working members, if the enterprise in which they are working does not have a fixed premises or in other words if these enterprises do not have fixed workplace (as in the case of a hawker or an artisan like carpenter, cobbler, knife-grinder, own-account carpenters, etc., who moves from place to place and goes to the customers), code 99 will be assigned, irrespective of whether the enterprise is operation in rural or urban areas. For those working in enterprises with fixed location, two sets of codes have been provided, one for the enterprises, which are located in the rural areas and the other for those that are in the urban areas. The two sets are identical in their classification. In the case, where the sector of location is both rural and urban, appropriate code is to be given on the basis major time criterion. Code 18/ 28 is relevant only for persons engaged in construction industry. The workplace of the workers engaged in construction activity is normally the site of construction and may change frequently. For them appropriate entry will be 18 / 28 and not 99. If the enterprise changes its location from time to time, e.g., a trading enterprise may shift its location from one market to the other on different days of the week although operates in a fixed place of the market, code will be 19 or 29 depending on whether the workplace is in the rural areas or in the urban areas. Similarly for the own account workers such as, rickshaw pullers, auto drivers, taxi drivers, lorry drivers, etc., code 19 or 29 will be assigned on the basis major time of operation of such enterprises.

Enterprise Type (Enterprise_Type)

File: Block_5_1_Usual principal activity particulars of household members

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 108504
Invalid: 0

Pre question

Enterprise type: The type of enterprise in which the household member is working is to be recorded under this column. The entry is to be made in terms of codes as given below:

enterprise type:
proprietary: male.....1
female2
partnership: with members from same hh.....3
with members from different hh.....4
Government/public sector5
Public/Private limited company6
Co-operative societies/trust/ other non profit institutions.....7
Employer's households (i.e., private households employing
maid servant, watchman, cook, etc.)8
others.....9.

If the informant does not know the type of enterprise in which the household member works and the investigator is unable to collect such information in spite of his/her best efforts, code 9 recorded for such working member against type of enterprise. For persons engaged in own account production of fixed assets, the enterprise type either proprietary or partnership, i.e, any of the codes 1 to 4.

Literal question

Enterprise type (code)

Interviewer instructions

The type of enterprise in which the household member is working is to be recorded under this column. The entry is to be made in terms of codes as given below:

: proprietary: male -1, female -2; partnership: with members from same hh. -3, with members from different hh. -4;
Government/public sector-5, Public/Private limited company-6, Co-operative societies/trust/other non profit institutions -7,
employer's households(i.e., private households employing maid servant, watchman, cook, etc.) -8, others -9.

If the informant does not know the type of enterprise in which the household member works and the investigator is unable to collect such information in spite of his/her best efforts, code 9 will be recorded for such working member against type of enterprise. For persons engaged in own account production of fixed assets, the enterprise type will be either proprietary or partnership, i.e, any of the codes 1 to 4.

Whether uses electricity for its production of goods and services (Enterprise_uses_Electricity)

Valid cases: 107812
Invalid: 0

Pre question

Whether uses electricity for its production of goods and services (yes -1, no -2, not known -9): The information as to whether the enterprise in which the person works, uses electricity for its production of goods and services is to be recorded here. It may be mentioned that use of electricity exclusively for purposes other than production like, for comfort, security, illumination, etc., not considered as the use of electricity by the enterprise for its production. Code 1 assigned if the enterprise uses electricity for its production. If the enterprise does not use electricity for its production, code 2. If the informant does not know whether the enterprise uses electricity for its production, code 9 will be recorded.

Literal question

Whether uses electricity for its production of goods and services (Enterprise_uses_Electricity)

File: Block_5_1_Usual principal activity particulars of household members

Whether enterpriseuses electrtricity for its production (Yes-1/No-2/Not known-9) ?

Interviewer instructions

Whether uses electricity for its production (yes -1, no -2, not known -9): The information as to whether the enterprise in which the person works, uses electricity for its production purposes is to be recorded here. It may be mentioned here that use of electricity exclusively for purposes other than production like, for comfort, security, illumination, etc., will not be considered as the use of electricity by the enterprise for its production. Code 1 will be assigned if the enterprise uses electricity for its production. If the enterprise does not use electricity for its production, code will be 2. If the informant does not know whether the enterprise uses electricity for its production, code 9 will be recorded.

Number of workers in the enterprise (No_of_Workers_in_Enterprise)

File: Block_5_1_Usual principal activity particulars of household members

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 107721

Invalid: 0

Description

Number of workers in the enterprise: Number of workers would mean the number of workers employed in the enterprise on an average in a day of operation, irrespective of whether they are hired worker or household members working in the enterprise. The number of workers that includes working owner(s), will be recorded in terms of codes as detailed below:

less than 6 1
6 & above but less than 10..... 2
10 & above but less than 20 3
20 & above 4
not known 9

Pre question

Number of workers in the enterprise: Number of workers would mean the number of workers employed in the enterprise on an average in a day of operation, irrespective of whether they are hired worker or household members working in the enterprise. The number of workers that includes working owner(s), will be recorded in terms of codes as detailed below:

less than 6 1
6 & above but less than 10..... 2
10 & above but less than 20 3
20 & above 4
not known 9

Literal question

No of workers in the enterprise (code)

Interviewer instructions

Number of workers would mean the number of workers employed in the enterprise on an average in a day of operation, irrespective of whether they are hired worker or household members working in the enterprise. The number of workers that includes working owner(s), will be recorded in terms of codes as detailed below:

less than 6 -1, 6 & above but less than 10 -2, 10 & above but less than 20 -3, 20 & above -4, not known -9.

In case the informant is not able to provide information on the number of workers, code 9 will be recorded

Type of job contract (Type_of_Job_Contract)

File: Block_5_1_Usual principal activity particulars of household members

Type of job contract (Type_of_Job_Contract)

File: Block_5_1_Usual principal activity particulars of household members

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 61746
Invalid: 0

Pre question

Type of job contract: It is to be ascertained for each employee whether for the job in which he/she is engaged, there is any written contract or agreement, irrespective of whether such contract is protected under national legislation or not, in respect of duration of employment with his/her employer. For those who reports to have written job contract with their employer, further probing may be done in respect of the length of duration of job contracted, and the information so obtained may be recorded in terms of the code 2, 3 or 4, depending upon the length of such contract, as given below:

no written job contract.....1

written job contract:

for 1 year or less.....2

for more than 1 year to 3 years.....3

more than 3 years.....4

Literal question

Type of job contract (code)

Interviewer instructions

It is to be ascertained for each employee (i.e., those with code 31, 41, or 51 in column 3) whether for the job in which he/she is engaged, there is any written contract or agreement, whether protected under national legislation or not, in respect of duration of employment with his/her employer. For those who reports to have written job contract with their employer, further probing may be done in respect of the length of duration of job contracted, and the information so obtained may be recorded in terms of the code 2, 3 or 4, depending upon the length of such contract, as given below:
: no written job contract -1; written job contract: for 1 year or less -2, more than 1 year to 3 years -3, more than 3 years -4.

If the contract of employment specifies a particular date of termination which is more than 3 years or if the type of job contracted is such that no time is fixed but the contract can only be terminated for certain administrative reasons such as incompetence, misconduct or for economic reasons then code 4 will be recorded. However, if no written contract exists, then irrespective of the duration of employment, code 1 will be recorded

Whether eligible for paid leave (Eligible_for_Paid_Leave)

File: Block_5_1_Usual principal activity particulars of household members

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 61737
Invalid: 0

Pre question

Whether eligible for paid leave: If the employee is eligible for paid leave then code 1 entered, otherwise code 2. Paid leave may include leave during sickness, maternity, or such leaves, as the employee is eligible to take without loss of pay as per the conditions of employment. The situation obtained excluding the paid off days/holidays which an enterprise normally allows to its employees.

Literal question

Whether eligible for paid leave (yes-1, no-2) ?

Interviewer instructions

If the employee is eligible for paid leave then code 1 will be entered, otherwise code will be 2. Paid leave may include leave during sickness, maternity, or such leaves, as the employee is eligible to take without loss of pay as per the conditions of employment. The situation will be obtained excluding the paid off days/holidays which an enterprise normally allows to its employees.

Availability of social security benefits (Social_Security_Benefits)

File: Block_5_1_Usual principal activity particulars of household members

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 61739
Invalid: 0

Pre question

Availability of social security benefits: It ascertained from the employees whether they are covered under any of the specified social security benefits or a combination of them which are arranged or for which contribution is made by the employer. The following code structure is to be adopted for recording the entry against this column:

eligible for:

only PF/ pension (i.e., GPF, CPF, PPF, pension, etc.) 1
only gratuity 2
only health care & maternity benefits..... 3
only PF/ pension and gratuity..... 4
only PF/ pension and health care & maternity benefits..... 5
only gratuity and health care & maternity benefits..... 6
PF/ pension, gratuity and health care & maternity benefits 7
not eligible for any of above social security benefits 8
not known..... 9

Literal question

Availability of social security benefits (code)

Interviewer instructions

It will be ascertained from the employees whether they are covered under any of the specified social security benefits or a combination of them which are arranged or for which contribution is made by the employer. The following code structure is to be adopted for recording the entry against this column:

eligible for: only PF/ pension (i.e., GPF, CPF, PPF, pension, etc.) -1,
only gratuity -2, only health care & maternity benefits -3, only PF/ pension and gratuity -4, only PF/ pension and health care & maternity benefits -5, only gratuity and health care & maternity benefits -6, PF/ pension, gratuity, health care & maternity benefits -7; not eligible for any of above social security benefits -8.

The term Provident Fund (PF) will include General Provident Fund, Contributory Provident Fund, Public Provident Fund, Employees Provident Fund, etc. It may be mentioned that coverage under any of these social security schemes will mean that the employer contributes/ arranges/ pays in implementing the social security benefits for the worker. If an employee operates, in his/ her individual capacity, a PPF account and the employer is not contributing in that account then it will not be considered a social security benefit. On the contrary, a scheme, in which both the employee and the employer contribute, will be considered a social security benefit. When benefits are given by the employer for treatment of illness/ injury or an employee is eligible for paid leave for a specified period of pre-natal/ childbirth/ post-natal stage or the expenditure for maternity care or childbirth is borne by the employer as per the conditions of employment, then such benefits will be considered as health care & maternity benefits. There may be cases where the employer is not directly contributing in a social security scheme for the employees, but being the member of the welfare association or organization or scheme in relation to the specific activity carried out by the employer, the employees get the benefit from that welfare association/ organization/ scheme. Such cases will also be considered as social security benefits availed through the employer and appropriate code will be assigned. If availability of social security benefits is not known to the employee, a dash (-) may be put in this column.

Method of payment (Method_of_Payment)

File: Block_5_1_Usual principal activity particulars of household members

Method of payment (Method_of_Payment)**File: Block_5_1_Usual principal activity particulars of household members**

Method of payment: The method of payment received by the person for work done recorded in codes. The applicable codes are:

regular monthly salary..... 1
 regular weekly payment 2
 daily payment 3
 piece rate payment..... 4
 others 5

Literal question

Method of payment (code)

Interviewer instructions

The method of payment received by the person for work done will be recorded in codes. The applicable codes are:

regular monthly salary -1, regular weekly payment -2, daily payment -3, piece rate payment -4, others - 5.

Seeking/ available for work Seeking/ available for work**(Seeking_available_for_work)****File: Block_5_1_Usual principal activity particulars of household members****Overview**

Type: Discrete

Format: character

Width: 1

Valid cases: 414244

Invalid: 0

Pre question

Period of seeking/ available for work during last 365 days: For persons of age 5 years and above, it is to be ascertained whether they were seeking/ available for work for some period during last 365 days. The period, which need not necessarily be continuous, for which the person was seeking/ available for work during last 365 days first rounded off to the nearest number of months and then appropriate code is to be given.

The code structure for period of seeking/ availability for work is as given below:

sought/ available for: :

less than 1 month.....1
 1 month & above but less than 3 months2
 3 months & above but less than 7 months.....3
 7 months & above but less than 10 months4
 10 months to 12 months5
 did not seek/ not available.....6

Literal question

Whether worked under given specifications (code) ?

Interviewer instructions

Seeking/ available for work Seeking/ available for work (Seeking_available_for_work)

File: Block_5_1_Usual principal activity particulars of household members

It is to be ascertained whether in relation to the activity recorded in col. 3, the person carried out the production (i.e., goods and services) on the basis of given or laid product-specifications of the 'employer'. The term 'employer' means a person, natural or legal, who, either directly or through an intermediary, whether or not intermediaries are provided for in national legislation, gives out home work in pursuance of his or her business activity. When a person procures the order/contract from the 'employer' for his or her household enterprise to supply goods, normally an implicit or explicit specification of the product, written or oral, is laid by the 'employer'. Sometimes, the whole activity is carried out under the specifications of the 'employer', or a part under the specifications of the 'employer' and rest of his own specification. The appropriate situation is to be ascertained and be recorded in codes. Note that most of the self-employed carry out activities on their own specification and for all the customers. They will get code 4. The relevant codes are given below:
yes: wholly -1, mainly -2, partly -3; no-4, not known -9

The situation of whether the self-employed person has worked under given specification of the 'employer', is to be adjudged corresponding to the activity status (recorded in col. 3) and the industry (recorded in col. 5) at 2 -digit level of NIC-2004. If the production of the whole range of products/services corresponding to the activity of the self-employed person is carried out according to the product specification of the 'employer', code 1 will be recorded. On the other hand, if majority of the production, in terms of value of output (i.e., more than or equal to 50 per cent), is carried out according to the product specification of the 'employer', applicable code will be 2. However, if only a part of the production is carried out according to the product specification of the 'employer', code will be 3. If the self-employed person does not work under the product specification of any 'employer' code will be 4.

Person Serial Number (Person_Serial_No)

File: Block_5_3_Time disposition during the week ended on

Overview

Type: Discrete	Valid cases: 495016
Format: character	Invalid: 0
Width: 2	

Description

Time disposition will be recorded for every member of the household listed in block 4. This involves recording of different activities pursued by the members along with the time intensity in quantitative terms for each day of the reference week. The different activities will be identified and recorded in terms of 'status' and 'industry' codes for persons in urban areas and 'status', 'industry' and 'operation' codes for persons in rural areas. The time intensity will be measured in half-day units. Since a person may be engaged in more than one type of activity on a single day, (in which case two such activities will be considered for that day) and different activities may be carried out on different days of the week, more than one line have been provided for each person in this block to record information on different activity particulars which have been carried out by the person in the week in separate lines.

Interviewer instructions

serial number of each person and his/her age recorded in columns (1) and (5), respectively of block 4, will be copied. The serial numbers in block 5.3 will be entered sequentially as they appear in column (1) of block 4. Provision has been made to record particulars of five persons in one page. Three such sheets have been provided. In case more pages are required to record the particulars of all the persons listed in block 4, additional sheets of block 5.3 may be used. These sheets should be firmly stapled with the main schedule at the appropriate place.

Since a person may pursue more than one activity during the seven days of the reference week, four lines have been provided for each serial number recorded in column (1) for making separate entries relevant to the different activities on a day (two such activities) on different days of the reference week. Past experience indicates that provision of four lines will cover almost all the situations. However, if a person reports more than four different activities during the reference week the block of four lines meant for the next serial number of persons may be utilised by putting cross (x) marks in columns (1) and (2), and continuous serial numbers in column (3). Obviously, the particulars of the next person will be entered in the cell meant for serial number of persons subsequent to the cell already utilised for the previous person. In the case of children of age 0 - 4 years, their particulars will be entered and status code 97 will be assigned to them with intensity 1.0 for all the seven days preceding the date of survey without any probing.

Person Age (Age)

Serial number of activity (Srl_no_of_Activity)

File: Block_5_3_Time disposition during the week ended on

Type: Discrete

Valid cases: 495016

Format: character

Invalid: 0

Width: 1

Description

Current day activity particulars

Pre question

Serial number of activity: For each person listed in column (1) of this block (which same as listed in column (1) of block 4), different activities pursued by them during all the seven days of the referenced week serially numbered and this serial number of activity recorded in column (3). Presuming that the likelihood of one person pursuing more than four different activities in a week is rather remote, only four lines are provided for each person.

Interviewer instructions

For each persons listed in column (1) of this block (which will be same as listed in column (1) of block 4), different activities pursued by them during all the seven days of the reference week will be serially numbered and this serial number of activity will be recorded in column (3). Presuming that the likelihood of one person pursuing more than four different activities in a week is rather remote, only four lines are provided for each person. As stated earlier, if a person pursues more than four different activities, the lines meant for the next person may be utilised. The current activity of a person in the rural areas is denoted by his status-cum-industry-cum-operation. Thus, for a person in the rural areas with the same status, if the industry division (2-digit NIC-2004 code) or operation are different on the same or different days, he will be considered to have pursued different activities and these activities will be entered in different lines. Similarly, in urban areas, the current activity of a person is denoted by his status-cum-industry. Thus, if a person in urban area ploughs his own field in the first half of the day and sows in the second half of the day, he will be considered to have only one activity during the day. But, in rural areas, he will be considered to have two activities.

activity status cod (Status)

File: Block_5_3_Time disposition during the week ended on

Overview

Width: 2

Pre question

Current day activity particulars

activity status code situation of working or being engaged in economic activities (employed)

Literal question

Status (code)

Interviewer instructions

The current activity 'status' codes corresponding to the serial number of activity entered in column (3) will be recorded in this column. The status codes which will be used in recording daily activity particulars and the weekly activity particulars are as follows:

): status: codes 11, 12, 21, 31, 51 and 91-95, 97 of col. (3), block-5.1 and also the following codes: worked as casual wage labour in public works other than NREG works - 41, worked as casual wage labour in NREG works - 42, had work in h.h. enterprise but did not work due to: sickness -61, other reasons -62; had regular salaried/wage employment but did not work due to: sickness -71, other reasons - 72; sought work -81, did not seek but was available for work -82, did not work due to temporary sickness (for casual workers only) -98.

It may be noted that these are same as the usual activity status codes, except the codes 42, 61, 62, 71, 72, 82 and 98 which are not applicable for usual status. Moreover, activity status code 41 in the usual status is used for casual wage labour in all types of public works, whereas in the current activity status, code 41 is for casual wage labour in public works other than NREG works and code 42 is for casual wage labour in NREG works. It may be noted that though under NREG Act persons of age 18 years and above in rural areas willing to do unskilled manual work are entitled to get NREG public works, for this survey, activity status code 42 may be assigned to those who have worked under NREG works irrespective of the age and place of residence of the person. Besides, code 81 in usual status is used to indicate both the situations of seeking and being available for work, while in the current activity status, code 81 is for the persons 'seeking work' and code 82 is for the persons who 'did not seek but was available for work'. The current weekly activity status for each individual will be identified based on the daily activity status codes.

NIC-2008 code 2-digit (NIC_2008_Code)

File: Block_5_3_Time disposition during the week ended on

Literal question

Industry division (2-digit NIC-2008 code)

Interviewer instructions

For each status code grouped under the activity category 'working' (i.e., for the status codes 11-72 recorded in column 4), the 2-digit NIC-2004 code will be entered in column (5) in terms of the specified code numbers.

Operation (for rural areas) (Operation)

File: Block_5_3_Time disposition during the week ended on

Overview

Type: Discrete

Valid cases: 113049

Format: character

Invalid: 0

Width: 2

Pre question

Operation (for rural areas): This column filled in for the persons belonging to the rural households only. The actual working operation performed by the persons relevant to the status codes grouped under the activity category working .

Literal question

For rural areas only, operation (code)

Interviewer instructions

Operation (for rural areas): This column will be filled in for persons belonging to the rural households only. The actual working operation performed by the persons relevant to the status codes grouped under the activity category working (i.e., status codes 11-72) will be entered in terms of codes in this column. It may be noted that for regular salaried/wage employees on leave or holiday, the 'operation' will relate to their respective function in the work or job from which he is temporarily off in view of his taking leave or holiday. Similarly for persons categorised 'self-employed' (status codes 11, 12 & 21) if they are not at work on a particular day inspite of their having work on that day, operation to be recorded will relate to the work they would have done if they had not enjoyed leisure on that day. The relevant codes to be used for making entries in this column are:

a) manual work in cultivation :

ploughing - 01 sowing - 02 transplanting - 03 weeding - 04 harvesting -05 other cultivation activities - 06;

b) manual work in other agricultural activities :

forestry - 07 plantation - 08 animal husbandry- 10

fisheries - 11 other agricultural activities - 12;

c) manual work in non-agricultural activities - 13;

d) non-manual work in :

cultivation - 14 activities other than cultivation- 15.

Intensity of activity on 7th day (Intensity_7th_Day)

File: Block_5_3_Time disposition during the week ended on

Current day activity particulars

Literal question

Intensity of activity (full-1.0, half-0.5)

Interviewer instructions

Intensity of activity on 7th day (Intensity_7th_Day)

File: Block_5_3_Time disposition during the week ended on

Although it may be theoretically possible that on a particular day of the reference week, a person may have any number of activities, the particulars relating to two activities identified on the basis of priority cum major time criterion need only be considered for making entries in this column. Thus, on a day, a person may either have only one activity with 'full' intensity or two activities with 'half' intensity for each. If the activity is pursued with intensity 'half' on a particular day, the entry will be 0.5 against that activity and if that is pursued with intensity more than half, 1.0 will be recorded against that activity in the relevant columns (7) to (13). Generally, an activity, which is pursued for more than 1 hour but less than 4 hours is considered to have been pursued with 'half' intensity. If it is pursued for 4 hours or more, the activity is considered to have been pursued with 'full' intensity. However, for some persons, less than four hours of work daily is their normal working hours for the work or profession. In such cases he will be considered to have worked with 'full' intensity.

The decision whether the intensity to be recorded for an activity will be 0.5 or 1.0 has to be taken by the investigating staff making careful probes into the actual situation obtaining for the person on a particular day. Mere declaration made by the informants, that less than four hours of work daily is their normal working hours for the work or profession, should not be the basis for recording the intensity as 1.0. In the case of a cultivator, a village artisan or a small trader, it should not be presumed that a few hours on a day, say during the lean periods of the year, is their normal work, and the intensity 1.0 need not necessarily be recorded for them. Since this particular block of the schedule is meant for recording the information on periodical or seasonal under-utilisation of available labour time, careful probes about the nature of work performed by a person during the day has to be made before recording the relevant entries.

To illustrate, in so far as the daily activity pattern of a person is concerned, the following seven different situations can be visualized for a person on a single day:

- (i) he/she may be engaged fully in one economic activity;
- (ii) he/she may be engaged in two different types of economic activities;
- (iii) he/she may be partly engaged in economic activity and for the rest of the day he may be seeking or available for work and at the same time may or may not be doing some non-economic activities;
- (iv) he/she may be partly engaged in economic activity and during the rest of the day he is not available for work and may be doing some non-economic activities;
- (v) he/she may be available for work for the entire day;
- (vi) he/she may be available for work for part of the day and for the remaining part he may not be available for work and may be pursuing some non-economic activity and
- (vii) he/she may be fully engaged in non-economic activities.

Which of the status codes are to be entered in column (4) will depend on whichever of the above situations are obtaining for a person on the different days of the reference week. The investigator is to first ascertain the exact situation from the informant and will then record the appropriate status code or codes, as the case may be, in this column using the priority-cum-major time criterion. The relevant codes to be used for recording the status are already given. The following illustrations may be noted for general guidance.

- (a) A person found to be engaged in domestic duties should not be categorised 'engaged in domestic duties' (code 92) if the person reports that he/she has also been available for work concurrently.
- (b) A person engaged in regular salaried/wage employment but currently not at work will be assigned code 71 or 72 irrespective of whether he is engaged in any other 'economic or non-economic' activity.
- (c) Unpaid apprentices will be treated as 'students' while paid apprentices will be treated as employees.
- (d) 'Free collection for sale' will be treated as self-employment.

Columns (7) to (13): Intensity of activity: For each activity recorded in column (3), the intensity with which the particular activity is performed on the different days of the reference week will be recorded in quantitative terms 'half' or 'full' in these columns. As described earlier, for each activity listed in column (3) either one 'full' intensity or two 'half' intensity may be assigned to a person on any one of the seven days of the reference week. For a particular activity, the recording of entries in columns (7) to (13) should start from column (7) which is provided for recording the intensity of that activity on the seventh day of the reference week, i.e., the day preceding the date of survey. Similarly, the intensity of that activity on the sixth, fifth and earlier days of the week will be recorded in columns (8), (9), (10), (11), (12) and (13) respectively. If the intensity of an activity is 'full' on a particular day, '1.0' will be recorded in the relevant column. On the other hand, if the intensity is 'half', the entry will be '0.5'. If that particular activity is not pursued on some other days of the reference week, the corresponding columns provided in the block for those days will be left blank against that activity. Thus, for each day, for a person, there will be either only one entry with intensity 1.0 in any one of the lines or two entries with intensity 0.5 each in any two of the lines.

Description

Wage and salary earnings (received or receivable) for the work done during the week (Rs): The wage and salary earnings (not total earnings) receivable for the wage/ salaried work done during the reference week, separately for each of the relevant activities pursued by each person

Pre question

Current day activity particulars

and

for codes 31, 41, 42, 51, 71, 72 in col.4 (i.e status code)

Literal question

Wage and salary earnings (received or receivable) for the work done during the week (Rs) (Cash)

Interviewer instructions

The wage and salary earnings (not total earnings) receivable for the wage/ salaried work done during the reference week, separately for each of the relevant activities pursued by each person, will be recorded in these columns. The wage and salary earnings are collected for regular wage/salaried employees and casual wage labours, the relevant status codes for which wages & salary are to be recorded are 31, 41, 42, 51, 71 and 72. The wages and salaries receivable for the work done during the reference week may be already received or may still be due to be received in cash or in kind or partly in cash and partly in kind. The total wage or salary receivable for the week in cash will be recorded in column 15 and the value of salary or wages in kind (evaluated at the current retail price) receivable for the week will be recorded in column 16. The total of columns 15 and 16 will be entered in column 17. The entries for all these columns will be made in whole number in rupees. For recording the wages or salaries, amount receivable as 'overtime' for the additional work done even from the same economic activity beyond normal working time will be excluded. Bonus (expected or paid) and perquisites evaluated at retail prices duly apportioned for the reference week will be considered as wages and included for making entries in these columns. For the activity statuses '71' and '72', the amount receivable for the week will be worked out on the basis of the number of days reported under the activity during the week.

Minimum: 0
Maximum: 7
Mean: 0
Standard deviation: 0.3

Pre question

Total number of days with nominal work: This column filled in for the persons with status code 11 to 72 recorded in column (4) against any 'serial number of activity' in column (3). Some of these persons who have reported intensity of work as 'half', for some of the days might have had work only for say, 1-2 hours on certain days out of them. Such days would be considered as days with nominal work.

Literal question

No of days with nominal work

Interviewer instructions

This column will be filled in for the persons with status code 11 to 72 recorded in column (4) against any 'serial number of activity' in column (3). Some of these persons who have reported intensity of work as 'half', for some of the days might have had work only for say, 1-2 hours on certain days out of them. Such days would be considered as days with nominal work. For each person, total number of days with only nominal work out of the 7 days reference period, for which intensity has been collected in columns (7) to (13) would be recorded in this column against the first line for the person. If for a person with status code 11 to 72, none of the days in the week are with nominal work entry in this column will be made as 0.

Current weekly status (codes) (Current_Weekly_Activity_Status)

File: Block_5_3_Time disposition during the week ended on

Overview

Type: Discrete
Format: character
Width: 2

Valid cases: 495016
Invalid: 0

Pre question

Current weekly status (codes) (Current_Weekly_Activity_Status)

File: Block_5_3_Time disposition during the week ended on

Current weekly status (codes): Based on the activity status obtaining for a person on the seven days of the reference week, the current weekly status is to be identified and the status code so obtained is to be recorded.

Current weekly activity particulars

Literal question

Status (code)

Interviewer instructions

Based on the activity status obtaining for a person on the seven days of the reference week, the current weekly status is to be identified and the status code so obtained is to be recorded here. This will be done as follows:

4.5.3.18 As already explained, the activity status of a person falls into one of three broad categories, viz. employed (any of codes 11-72), unemployed (any of codes 81 or 82) and out of labour force (any of codes 91-98). The activity status for any day of the seven days is recorded in column (4). If any of these is a work related activity code, i.e., any of 11 to 72 the person will fall in the employed category on the current weekly status. In other words, if the person is found to have been assigned a work status code on any of the day of the last week he will be considered as working in the current weekly status. For assigning the unemployed status code (i.e., either 81 or 82) to a person as his weekly activity status code, the person should not have had any work activity status codes on any of the days of the last week but should have one of codes 81 or 82 on at least one day of the last week (i.e., the entry in column (4) should not be any of 11-72 but should be 81 or 82 against one of the serial nos. of activity). Persons without any of codes 11-82 in column (4) will be those who will be treated as out of labour force in the current weekly status.

4.5.3.19 Further, within the three broad activity status categorisation, the detailed activity status codes will be assigned taking into account the number of days in each activity recorded in column (14) in terms of the aggregate of intensities obtaining on various days. Within the broad activity status category identified for a person, the activity status code in column (4), which has the highest value in column (14), corresponding to a serial number of activity within the broad activity status, will be recorded in column (20). The entries for column (20) will be made in the line corresponding to the first line for each person, i.e., the line in which serial no. of activity in col. (3) is 1

NIC-2008 Code (Current_Weekly_Activity_NIC_2008)

Invalid: 0

Description

National Industrial Code

Pre question

Current weekly activity particulars

And

for codes 11-72 in col. 20(i.e Current weekly activity status (code))

Literal question

Industry (5-digit NIC 2004 code)

Interviewer instructions

Columns (21) & (22): Industry and occupation: For persons with any of codes 11-72 in column (20), the 5-digit industry (NIC-2004) and 3-digit occupation (NCO-2004) will be recorded in these two columns. Note that to identify certain category of workers separately, NIC-2004 industry class code 9500 has been split. Those are to be considered here also. The industry and occupation will correspond to the economic activity in which the highest number of days have been spent as explained in the previous paragraph. In the cases where equal number of days is spent on two or more activities (like in case of person with serial number 4 in the above example) the industry and occupation corresponding to the activity appearing first in the code list in terms of status and industry (in urban areas) or in terms of status, industry and operation (in rural areas) will be noted in columns (21) & (22).

Pre question

Whether unemployed on all the 7 days of the week: From the daily time disposition recorded in it is to be ascertained whether the person was unemployed on all the seven days

Literal question

Whether unemployed on all the 7 days of the week (Yes-1, no-2) ?

Interviewer instructions

From the daily time disposition recorded in columns (7) to (13), it is to be ascertained whether the person was unemployed on all the seven days, i.e., if he/she had total intensity 1.0 against code 81/82 in column (4) on all the seven days of the week. Code 1 or 2 will be recorded in this column depending on the situation.

Whether engaged mostly in full time or part time work during last 365 days (Full_Time_or_Part_Time)
 File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 171834

Invalid: 0

Pre question

Whether engaged mostly in full time or part time work during last 365 days: it ascertained if the person was engaged mostly in full time work or part time work during last 365 days. Persons working for less than or equal to half of the normal working hours of the enterprise on a fairly regularly basis will be considered as part time workers and others will be considered as full time workers

Literal question

whether

engaged

mostly in

full time or part time work during last 365 days

(full time -1, part time -2)

Interviewer instructions

Column (5): Whether engaged mostly in full time or part time work during last 365 days: In column (5), it will be ascertained if the person was engaged mostly in full time work or part time work during last 365 days. Persons working for less than or equal to half of the normal working hours of the enterprise on a fairly regularly basis will be considered as part time workers and others will be considered as full time workers. Those who are mostly engaged in full time work will be given code 1 and those who are mostly engaged in part time work will be given code 2. The codes are:

full time 1

part time 2

Whether worked more or less regularly during last 365 days (Worked_more_or_less_Regularly)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 171605
Invalid: 0

Pre question

Whether worked more or less regularly during last 365 days: According to the usual principal status approach, the broad activity category has been determined on the basis of the major time criterion. Thus, the persons, who are 'employed' in their usual principal status may or may not be employed throughout the last 365 days. Those who have worked more or less regularly, considering both principal economic activity and subsidiary economic activity, during the reference year will be given code 1. Others will be given code 2.

Literal question

whether
worked
more or
less regularly during last 365 days
(yes-1, no-2)

Interviewer instructions

Whether worked more or less regularly during last 365 days: According to the usual principal status approach, the broad activity category has been determined on the basis of the major time criterion. Thus, the persons, who are 'employed' in their usual principal status may or may not be employed throughout the last 365 days. By virtue of the procedure adopted for classification of activity statuses it is possible that some of them were not employed for considerable length of time. In the case of those, who were employed only in the subsidiary status, this will be the situation most often. Thus, this item will be filled in both for usual principal status workers and usual subsidiary status workers. Those who have worked more or less regularly, considering both principal economic activity and subsidiary economic activity, during the reference year will be given code 1. Others will be given code 2.

Approximate no. of months without work (No_of_Months_Without_Work)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-12

Valid cases: 128790
Invalid: 43491
Minimum: 0
Maximum: 12
Mean: 0.8
Standard deviation: 1.6

Pre question

Approximate no. of months without work: the number of months a person was without work recorded. The months without work need not be continuous. It is quite possible that a person was without any work for a couple of months, then in employment for some months and again out of work for a couple of months. The 'approximate number of months without work' will include the months in which a person was unemployed and also the months in which he/she was out of labour force, i.e., neither seeking/ available for work.

Literal question

approximate
no. of months without work (months)

Interviewer instructions

Approximate no. of months without work (No_of_Months_Without_Work)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Approximate no. of months without work: In column (7), the number of months a person was without work will be recorded. The months without work need not be continuous. It is quite possible that a person was without any work for a couple of months, then in employment for some months and again out of work for a couple of months. The 'approximate number of months without work' will include the months in which a person was unemployed and also the months in which he/she was out of labour force, i.e., neither seeking/ available for work. Part of month will be rounded off to the nearest month. Hence, for a month if the period without work is reported to be less than 30 days but 15 days or more, it should be recorded as 1 month without work. Situation is to be assessed for all the months separately to get number of months without work during the reference year. Note that some of those, who have reported to have worked more or less regularly during the reference year, i.e., code 1 in column (6), may be found to be without work for some months, after deep probing. For such persons also, number of months without work will be recorded in column (7) and entry in col. (6) should not be changed.

whether sought/available for work during those months (Sought_Available_for_Work)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Valid cases: 19816
Invalid: 0

Literal question

for codes 1 & 2 in col. 8, whether made any efforts to get work (code)

Interviewer instructions

Whether made any efforts to get work: For those who were not at work for some months and sought or were available for work on most or some days of those months (i.e., with codes 1 or 2 in col. 8), the efforts made by them to get work will be recorded in terms of the following codes:

yes:

registered only in government employment exchanges..... 1
registered only in private placement agencies..... 2
registered in both government employment exchanges and private placement agencies..... 3
other efforts..... 4
no effort..... 5

Whether sought/ available for additional work during the days he/ she had work (Available_for_Additional_Work)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 171035
Invalid: 0

Description

Whether sought/ available for additional work during the days he/ she had work: The time reference to record whether the person was seeking/ available for additional work (i.e., work in addition to the present work) in that period of last 365 days during which the person was employed either in principal status or in subsidiary status or in both the statuses.

Literal question

whether sought/ available for additional work during the days he/she had work (code)

Interviewer instructions

The time reference to record whether the person was seeking/ available for additional work (i.e., work in addition to the present work) will be that period of last 365 days during which the person was employed either in principal status or in subsidiary status or in both the status. Thus, for a person, whose usual principal status is unemployed but had subsidiary work for a relatively short period, the availability for additional work will refer only to the short period he/ she was working. This criterion will be applicable to column (14) also. The entries will be made in codes given below:

: yes: on most days -1, on some days -2; no -3.

Reason for seeking/ available for additional work (Reason_Available_for_Addl_work)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 8817
Invalid: 0

Description

Reason for seeking/ available for additional work: the reason for seeking/ available for additional work

Literal question

for codes
1 & 2 in
col. 12, reason (code)

Interviewer instructions

to supplement income 1
not enough work 2
both 3
others 9

Whether sought/ available for alternative work during the days he/ she had work (Available_for_Alternative_Work)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 170924
Invalid: 0

Description

Whether sought/ available for alternative work during the days he/ she had work: As in the case of availability for additional work, information in respect of a person's availability for alternative work.

Literal question

whether sought/
available
for
alterna-tive work during the days he/she had work (code)

Interviewer instructions

Whether sought/ available for alternative work during the days he/ she had work: As in the case of availability for additional work, information in respect of a person's availability for alternative work (i.e., work instead of the present work) will be collected with reference to that period of last 365 days during which he/ she was employed either in principal status or in subsidiary status or in both the statuses. The entry will be made in codes as given below.

yes : on most days 1
on some days 2
no 3

Reason for seeking/ available for alternative work (Reason_Available_for_Alt_work)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 8604
Invalid: 0

Description

Reason for seeking/ available for alternative work: For the persons who 'sought/ available' for alternative work at least for some days.

Pre question

Follow-up questions on availability for work to persons working in the usual principal or subsidiary status (i.e., those with codes 11-51 in col. 3 of bl. 5.1 or bl. 5.2)

Literal question

for codes
1 & 2 in
col. 14,
reason (code)

Interviewer instructions

Reason for seeking/ available for alternative work: For the persons who 'sought/ available' for alternative work at least for some days, i.e., for persons with codes 1 and 2 in column (12), the reason for doing so will be recorded in codes as follows:

present work not remunerative enough 1
no job satisfaction 2
lack of job security 3
work place too far 4
wants wage/salary job 5
others 9

Is there any Union/ Association (Any_union_association)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 171204
Invalid: 0

Pre question

Follow-up questions on availability for work to persons working in the usual principal or subsidiary status (i.e., those with codes 11-51 in col. 3 of bl. 5.1 or bl. 5.2)

and
for codes 11, 12, 21 in col. 3/ col. 4 (i.e principal / subsidiary activity status cod

Literal question

what
amount (Rs.) per month would you regard as remunerative? (code)

Interviewer instructions

Is there any Union/ Association (Any_union_association)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Is there any union/association in your activity?: Union/association will mean any registered/recognised body whose membership is open to a section of those engaged in a specific activity or trade and whose main objective is to look into the interests of its members.

yes 1
no 2
not known 9

Whether a member of Union/ Association (Member_union_association)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 39104
Invalid: 0

Interviewer instructions

Whether a member of union/association: If the respondent reports that a union/association exists in his/her activity, i.e, if entry is 1 in column (14), it is to be ascertained if he/she is a member of that union/association. If the household member is a member of that union/association, code 1 will be recorded, otherwise code will be 2.

Nature of employment: (Nature_of_employment)

File: Block_6_Follow-up questions on availability for work, existence of union or association and nature of employment for persons working in the usual principal or subsidiary status

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 170559
Invalid: 0

Description

Nature of employment will be considered as permanent if the person is, in normal course, likely to continue in the same employment

Interviewer instructions

Nature of employment: In column (16), the nature of employment (i.e., whether permanent or temporary) will be recorded in terms of code. Nature of employment will be considered as permanent if the person is, in normal course, likely to continue in the same employment. If the nature of employment is permanent code will be 1 and if the nature of employment is temporary code will be 2.

Overview

Type: Discrete	Valid cases: 98954
Format: character	Invalid: 0
Width: 1	

Description

Members of Household spend most of their time on domestic duties during 365 days preceding the date of survey

Pre question

Follow-up questions for persons with usual principal activity status code 92 or 93 in col. 3 of bl. 5.1

Literal question

were you required to spend most of your time on domestic duties almost throughout the last 365 days? (yes-1, no-2) ?

Interviewer instructions

Spend time on domestic duties (Spend_Time_on_Domestic_Duties)

File: Block_7_Follow-up questions for persons with usual principal activity status code 92 or 93 in col. 3 of bl. 5

Item 3 to 5: It will be ascertained whether the members are "required to spend most of their time on domestic duties during 365 days preceding the date of survey". If the answer is in the affirmative, code 1 and if the answer is in the negative, code 2 will be recorded against item 3 for each of the members. If the answer is 'yes', i.e., if the entry against item 3 is code 1 for a member, the reason for his/her participation in the household duties will be ascertained and recorded in terms of the specified codes against item 4.

The relevant codes to be used for item 4 are:

no other member to carry out the domestic duties 1
cannot afford hired help 2
for social and/or religious constraints3
others 9

For persons with code 1 in item 3, item 5 will be left blank. On the other hand, if the entry against item 3 is 2 for a person, (i.e., such participation was not required but still the he/she participated in the household chores) the reason for his/her voluntary participation in household chores will be ascertained and the code relevant to the answer obtained will be recorded against item 5. In such a case, item 4 will be left blank.

The codes to be used for making entries against item 5 are:

non-availability of work1
by preference 2
others 9

Reason for domestic duties (Reason_thereof)

(Reason_Still_Pursuing_Dom_duties)

File: Block_7_Follow-up questions for persons with usual principal activity status code 92 or 93 in col. 3 of bl. 5

The codes to be used for making entries are:

non-availability of work1
 by preference 2
 others 9

Literal question

if code 2 in item 3, reason for still pursuing domestic duties
 (non-availability of work-1, by preference-2, others-9)

Matenance of Kitchen Garden (Maintenance_of_Kitchen_Gardens)

File: Block_7_Follow-up questions for persons with usual principal activity status code 92 or 93 in col. 3 of bl. 5

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 98867

Invalid: 0

Pre question

maintenance of kitchen gardens, orchards, etc.? (yes-1, no-2)

Literal question

Along with your domestic duties did you more or less regularly carry out during the last 365 days:

maintenance of kitchen gardens, orchards, etc.? (yes-1, no-2)

Interviewer instructions

Items 6 to 19: These 14 questions relate to the participation in 14 specified activities, which are self-explanatory. It will be ascertained whether the person along with his/her normal domestic duties also participated, during the 365 days preceding the date of survey, more or less regularly in the specified activities listed. For the questions 6 to 9 and 15 to 19, if the answer is 'yes', code '1' and if the answer is 'no', code '2' will be recorded against the relevant items for the particular person. It may be noted that item 19 and 20 will be filled in for rural areas only. On the other hand, for the items 10 to 14, if the answer is in the affirmative, it will be further ascertained whether the person participated in the processing of mainly own farm/free collected commodities or processing of commodities procured otherwise and the code relevant to the situation will be recorded. The codes to be used are:

yes:

commodities produced in own farm/free collection 1 commodities acquired otherwise 2
 no 3

Range: 0-5	Mean: 1.5
	Standard deviation: 1.2

Pre question

Follow-up questions for persons with usual principal activity status code 92 or 93 in col. 3 of bl. 5.1

Literal question

if 1 in item 19, distance in kilometres

Interviewer instructions

Item 20: This item will be used for rural areas only. If for a particular person the answer to the question listed against item 19 (i.e., whether the person brings water from outside the village), is 'yes' (i.e., code 1), the distance (rounded off to the nearest kilometre) he/she had to travel from the household premises to the source of water will be recorded against this item.

willing to accept work at household (Willing_to_Accept_Work)

File: Block_7_Follow-up questions for persons with usual principal activity status code 92 or 93 in col. 3 of bl. 5

Overview

Type: Discrete	Valid cases: 99042
Format: character	Invalid: 0
Width: 1	

Pre question

Follow-up questions for persons with usual principal activity status code 92 or 93 in col. 3 of bl. 5.1

Literal question

In spite of your pre-occupation in domestic duties, are you willing to accept work if work is made available at your household? (yes-1, no-2)

Interviewer instructions

willing to accept work at household (Willing_to_Accept_Work)

File: Block_7_Follow-up questions for persons with usual principal activity status code 92 or 93 in col. 3 of bl. 5

Item 21: For all those categorised as 'usually engaged in domestic duties' and listed against item '1' it will be ascertained whether they will be prepared to accept work if work is made available at their household premises. If the answer is in the affirmative, code 1 and if the answer is in the negative, code 2 will be recorded against this item.

Information on items 22 to 25 is to be collected for those with code 1 in item 21.

Item 22 to 25 (for persons with code 1 in item 21): The questions listed against these items will be put only to those who have answered in the affirmative for the question listed against item 21 (i.e., persons with entry 1 against item 21). The codes appropriate for the answers obtained will be recorded against the relevant items. For items 22, 23 and 25, if more than one code is found to be applicable, the code which appears first in the code list only will be recorded. The relevant codes to be used for filling in the items 22, 23 and 25 are as under:

(i) Item 22: nature of work acceptable:
 regular full time 1
 regular part time 2
 occasional full time 3
 occasional part time 4

(ii) Item 23: type of work acceptable:

dairy -1, poultry -2, other animal husbandry -3, food processing -4
 ,spinning and weaving -5, manufacturing wood and cane products -6
 ,tailoring -7, leather goods manufacturing -8, others -9.

(iii) Item 25: assistance required to undertake that work:

no assistance -1; yes: initial finance on easy terms -2, working finance facilities -3,
 easy availability of raw materials -4, assured market -5, training -6, accommodation -7, others -9.

Nature of work accepted (Nature_of_Work_Acceptable)

Interviewer instructions

(Item_Group_Srl No)

File: Block_8_Household consumer expenditure

Value of consumption during last 30 days

Item 1: Cereals & cereal products: This will include items like rice, wheat/atta, jowar, bajra, maize, barley, small millets and their products like chira, khoi, lawa, muri, maida, suji, rawa, sewai, noodles, bread (bakery), cornflakes, pop-corn, etc. and sattu prepared from barley/ other cereals. Besides these, tapioca, jackfruit seed, mahua, etc, which are consumed as substitutes for cereals will also be included here.

Item 2: Pulses & pulse products: This includes pulses such as arhar, gram, moong, masur, urd, peas, soyabean, khesari, etc., and pulse products such as besan, sattu, papad, badi, etc.

Item 3: Milk: This will mean milk as directly obtained from cow, buffalo, goat or any other livestock, milk sold in bottle or polypack. If the household purchases milk and prepares sweetmeats or transforms milk into curd, casein, ghee, etc., at home these will be included here.

Item 4: Milk products: This will include condensed/powder milk, curd, ghee, butter and also baby food, ice-creams, etc., the principal constituent of which is milk.

Item 5: Edible oil and vanaspati: Oil used in food preparation will be considered as 'edible oil' such as vanaspati, margarine, mustard oil, groundnut oil, etc. If oil is extracted by crushing purchased or grown oilseeds and the oil is consumed then the entry will be shown against this item.

Item 6: Vegetables: This item will include potato, onion, radish, carrot, turnip, beet, sweet potato, arum, leafy vegetables, tomato, peas, garlic, ginger, etc. It will also include green fruits like mango, watermelon, etc. consumed after preparing processed food.

Item 7: Fruits & nuts: This includes fresh fruits such as mango, banana, jackfruit, watermelon, pineapple, sugarcane coconut, guava, orange, etc. and also dry fruits and nuts.

Item 10: Salt and spices: It will include all edible salt irrespective of whether it is iodised or not. This item will also include spices such as turmeric, black pepper, dry chillies, oilseeds which are generally used in food preparations.

Item 11: Other food items: This will include prepared tea, coffee, tea leaf, coffee powder, ice, cold beverages, fruit juice, green coconut, biscuits, salted refreshments, prepared sweets, cake, pastry, pickles, sauce, jam, jelly, cooked meals, prepared rice, snacks, tiffin, food packets, etc. Food items for babies like Farex, Cerelac, etc., whose principal constituent is not milk will also be included here.

Item 12: Pan, tobacco & intoxicants: This will include pan leaf, finished pan, supari, lime, katha, bidi, cigarettes, snuff, cheroot, zarda, ganja, toddy, country liquor, beer, foreign liquor, etc.

Item 13: Fuel & light: This will include coke, firewood and chips, electricity, dung cake, kerosene, match box, coal, LPG, gobar gas, candle, etc. and petrol, diesel, etc. used for generating electricity.

Item 20: Rent/house rent: This item consists of rent for residential building and garage rent for private vehicle of the household. Amount last paid divided by the number of months for which the payment was made will be recorded here. The rent for government quarters will be the amount of house rent allowance (HRA) per month not paid to the employee plus the licence fee deducted per month from the salary for the quarters. Salami/pugree will not be considered anywhere in the schedule. No imputation of rent will be done for owner occupied dwellings.

Item 21: Consumer taxes and cesses: This will include road cess, chowkidari tax, municipal rates, water charges, etc.. Sometimes, while purchasing a new vehicle, life tax is paid. In such case, monthly average of tax & cess will be recorded against this item.

Item 22: Medical expenses (non-institutional): This includes expenditure which were incurred on medical treatment not as an in-patient of a medical institution. This includes expenses on medicine, clinical tests, X-ray, pathological tests, payments made to doctor, nurse, etc., on account of professional fees. Expenditure on family planning appliances such as IUD, oral pills, condoms, diaphragm, spermicide. Expenditure incurred on MTP (medical termination of pregnancy) may be recorded against here if hospitalisation is not necessary. Similarly, hiring charges for ambulance may be recorded here if hospitalization is not necessary. Reference period for medical expenses (non-institutional) is 30 days.

Value of consumption during last 365 days

Item 24: Medical expenses (institutional): This includes expenditure which were incurred on medical treatment as an in-patient of a medical institution. Expenditure incurred on MTP (medical termination of pregnancy) may be recorded against here if hospitalisation is necessary. Similarly, hiring charges for ambulance may be recorded here if hospitalization is necessary. Expenditure incurred for clinical tests, X-ray, etc. will be recorded against this item if hospitalisation was necessary.

Item 25: Tuition fees and other fees: It also includes fees paid to educational institutions (e.g., schools, colleges, universities, etc.) on account of tuition (inclusive of minor items like game fees, fan fees, etc.) and payment to private tutor. Occasional payments to the school fund made on account of charities provided for indigent students and 'donations' generally will not be included here as these are regarded as transfer payments.

Item 26: School books and other educational articles: Expenditure on all kinds of books, magazines, journals, etc., including novels and other fiction will be covered under this item. Expenditure on Internet other than telephone charges will also be covered here. Besides these, expenses on library charges, stationery, etc., will also be covered here.

Item 27: Clothing and bedding: In this item, information on value of consumption of all items of clothing and bedding during the last 365 days will be collected. When any garment is sewn at home by a household member, its value will be equal to the value of cloth only. No labour charges for sewing of the garment need be included unless the sample household itself is running a tailoring shop. Similarly, for a quilt made at home of which the materials (viz., cloth, stuffing, cotton, thread, etc.) were purchased the value of the materials used will be shown against this item. All second-hand clothing items, like dhoti, saree, ready-made garments, etc., purchased and brought into first-use will be recorded against this item.

Durables goods (items 29 to 37): Information on expenditure incurred for purchase and cost of raw materials and services for construction and repairs of durable goods for domestic use during the last 365 days will be collected in items 29 to 37. Expenditure will include both cash and kind. Purchase will include both first-hand and second-hand purchase. Only if some expenditure is incurred towards purchase of an item, may be in cash or kind or both, the item will be considered as purchased. Expenditure incurred on purchase of durable goods for giving gifts will also be included. In case of credit/ hire-purchase, the actual expenditure made during the reference period will be recorded.

It should be noted that the purchase of residential building and land, whether first-hand or second-hand, should not be entered in item 37, since such purchases are considered capital expenditure on real estate. Any new construction of building is also an expense on capital account and should not be entered in item 37. The total expenditure incurred by the household towards repairs and maintenance of dwelling unit (only) during the reference period would be entered against item 37.

Investigators should not spend too much time for filling up the worksheet. Unless the respondents themselves ask for clarifications, they are not to ask about quantities consumed item by item to arrive at sub-total figure. The idea is to fill up the worksheet in about half an hour per household. Experience shows that one can obtain a fair enough estimate of household consumer expenditure in half an hour per household

Household consumer expenditure: Household consumer expenditure is the sum total of monetary values of all goods and services consumed (out of purchase or procured otherwise) by the household on domestic account during a specific reference period. The definition of household consumer expenditure and the procedure for evaluating it will be the same as for Schedule 1.0. Care should be taken to exclude (i) expenditure on purchase of land and building (ii) expenditure on household enterprise including farm (iii) interest payments (iv) cash transfers (one-way transactions where the household does not receive any consumer goods and services in return), as all these may be mistakenly reported by the household as "consumer expenditure".

A worksheet has been designed to collect information on household consumer expenditure in Schedule 10. The aim of this worksheet is to arrive at an approximate value of household consumer expenditure, which will serve as proxy for total expenditure that could be obtained through the detailed consumer expenditure schedule. This approximate value of consumer expenditure will be used for classifying sample households into different levels of living for studying employment characteristics of households at different levels of living. The worksheet contains 36 different components of household consumer expenditure. Considering that an item group may contain different items, an attempt has been made to indicate, in parentheses, some of the items included in a particular group, so as to facilitate collection of consumer expenditure data for an item group. Two reference periods, viz., 30 days and 365 days, will be used to record consumption of different groups of items; these are indicated in the headings of columns (3) and (4).

The items of consumption have been classified into four groups and the definition of consumption differs from group to group.
