### Version

---

#### VERSION DESCRIPTION

V1.0; Re-organised anonymised dataset for public distribution.

#### PRODUCTION DATE

2012-03-20

### Overview

---

#### ABSTRACT

An all-India survey on the situation of employment and unemployment in India during the period July, 2005 to June, 2006 was carried out as part of the annual series in the 62nd round of the National Sample Survey Organisation (NSSO). In this survey, a nation-wide enquiry was conducted in a moderately large sample of households to provide estimates on various characteristics pertaining to employment and unemployment in India and some characteristics associated with them at the national and state levels. Information on various facets of employment and unemployment in India were collected through a schedule of enquiry (Schedule 10).

In terms of subject coverage for employment and unemployment (Schedule 10), this survey is broadly similar to the NSS 60th round. On the request of the Planning Commission, additional information regarding the possession of different types of 'ration cards' by the households and the participation of the household members in the rural areas in various public works programmes were also collected. Further, to meet the requirements of the Ministry of Human Resource Development, information on current attendance in educational institutions by persons of age below 30 years and the type of educational institutions being attended by the persons currently attending educational institutions was also collected. Instead of collecting detailed particulars on formal vocational training, as was done in NSS 60th round, it was enquired from the household members, of age 15 - 29 years, whether they received or receiving 'formal' or 'non-formal' vocational training. Besides, information was collected on whether the household members ( of age 15 - 29 years) were receiving formal vocational training. For the purpose of collection of information on industry of activity, National Industrial Classification (NIC), 2004 was used in this survey.

#### KIND OF DATA

Sample survey data [ssd]

#### UNITS OF ANALYSIS

Randomly selected households based on sampling procedure and members of the household

### Scope

---

#### NOTES

As in the quinquennial surveys, in the present survey too, NSSO collected data on some characteristics, based on which, estimates of employment and unemployment, measured in terms of three basic approaches, viz., usual status, current weekly status and current daily status can be obtained. The reference period for these approaches differ - it being 365 days preceding the date of survey for 'usual status', 7 days preceding the date of survey for 'current weekly status' and each day of the 7 days preceding

the date of survey for 'current daily status'.

Data were collected on the activity status of all persons, i.e. for workers, for those seeking or available for work and also for those remaining out of labour force. A worker could be self-employed or enjoy regular salaries/wages or be employed on casual wage basis. Data on this aspect, along with the industry of work of the worker and his/her occupation, were collected during this survey. In order to reveal the multi-dimensional features of the employment-unemployment situation in India, information on several correlates pertaining to it were also gathered. Information on participation of the household members of age 15 years and above, in the rural areas, in public works programmes, was additionally collected. To study the employment and unemployment in proper perspective, information on current attendance in educational institutions for persons of age below 30 years was also collected. To have an idea about the skill level of the population, information on, whether the household member of age 15 -29 years, received 'formal' or 'non-formal' vocational training and whether they were receiving formal vocational training were collected.

In this round, Schedule 10 on employment-unemployment consisted of 9 blocks. The first three blocks, viz. Blocks 0, 1 and 2, were used to record identification of sample households and particulars of field operations, as is the common practice in usual NSS rounds. Similarly, the last two blocks, viz., Blocks 7 & 8, were again the usual blocks to record the remarks of investigator and comments by supervisory officer(s), respectively. Of the remaining 4 blocks,

Block 3 was for recording the household characteristics like household size, household industry, occupation, religion, social group, household type, land possessed, possession of ration card, and monthly household consumer expenditure, etc.

Block 4 was for recording the demographic particulars, current attendance in educational institutions, vocational training and some particulars relating to participation of the household members on public works.

In Block 5, usual activity particulars, both principal and subsidiary, of all the household members, were recorded.

The daily time disposition for different activities, for each of the seven days prior to the date of survey, along with the particulars of the activities, were recorded for each of the household members in Block 6. For the regular salaried/ wage employee and casual labourers, wage and salary earnings were also collected in this block. Besides, the current weekly status (cws) derived in this block from the daily time disposition data.

#### TOPICS

Topic	Vocabulary	URI
Labor Markets	World Bank	<a href="http://www.surveynetwork.org/toolkit">http://www.surveynetwork.org/toolkit</a>

#### KEYWORDS

Employment, Unemployment, Indebtedness of rural labour, Usual principal activity, Usual subsidiary activity, Time disposition during the week, Migration

## Coverage

#### GEOGRAPHIC COVERAGE

The survey covered the whole of the Indian Union except (i) Leh (Ladakh) and Kargil districts of Jammu & Kashmir, (ii) interior villages of Nagaland situated beyond 5 kilometres of the bus route and (iii) villages in Andaman and Nicobar Islands which remain inaccessible throughout the year. All the sample first-stage units of the districts Poonch and Rajouri of Jammu & Kashmir, became casualty and therefore, the districts Poonch and Rajouri of Jammu & Kashmir, are outside the survey coverage. . Thus, the estimates of Jammu and Kashmir and all-India estimates do not include these two districts.

#### UNIVERSE

The survey used the interview method of data collection from a sample of randomly selected households and members of the household

# Sampling

## Sampling Procedure

---

An outline of the sampling design: The 62nd round (July 2005 - June 2006) of NSS was earmarked for survey on unorganised manufacturing enterprises, annual survey of consumer expenditure and survey on employment – unemployment. The sampling design adopted for the survey was essentially a stratified multi-stage one for both rural and urban areas. Two frames were used for this survey viz. List frame and Area frame. List frame was used only for urban sector and that too for selection of manufacturing enterprises only and thus is not relevant for discussion. Area frame was adopted for both rural and urban sectors for selection of First Stage Units (FSU). For the area frame, the list of villages as per census 2001 (for Manipur, 1991 census was used since 2001 census list was not available) was used as frame for the rural sector and the latest available list of UFS blocks was used as frame in the urban sector. However, EC-98 was used as frame for the 27 towns with population 10 lakhs or more (as per Census 2001). The ultimate stage units (USU) were households, in both the sectors. In the case of large villages/ blocks requiring hamlet-group (hg)/ sub-block (sb) formation, one intermediate stage was the selection of two hgs/ sbs from each FSU.

Sample Size – first stage units: At the all-India level, a total number of 9997 FSUs (4847 villages in the rural areas and 5150 UFS blocks in the urban areas) for area frame were allocated on the basis of investigator strength. The allocation between rural and urban sectors was made in proportion to the number of unorganised non-agricultural workers as per EC-98. The total (all-India) rural/ urban sample FSUs were allocated to different States and U.Ts. in proportion to number of unorganised non-agriculture workers as per EC-98 subject to the availability of investigators ensuring more or less uniform work-load. Within each sector of a State/ U.T, the respective sample sizes were allocated to the different strata in proportion to the stratum population as per census 2001. Out of these 9997 FSUs allotted for survey, 9923 FSUs could be surveyed - 4798 in rural and 5125 in urban. Note that in the 62nd round, a sample of 10706 FSUs (4962 villages and 5744 urban blocks) was also selected for survey by the state agencies (State sample) at the all-India level.

Sample size – second stage units: For Schedule 10, a sample of 8 households was planned to be surveyed from each selected village and urban block. In the Central sample, 78879 households were actually surveyed – 37975 in rural areas and 40904 in urban areas.

As regards the actual number of persons surveyed, it was 186571 in the rural sector and 190806 in the urban sector.

## Deviations from Sample Design

---

There was no deviation from the original sample deviation.

## Weighting

---

For generating any estimate, one has to extract relevant portion of the data, and aggregate after applying the weights.

Weights (or multipliers) VARIABLES are given at the end of record of each dataset. The weights (multipliers) are WGT\_SS for Sub-sample-wise estimation and WGT\_Comb for combined subsample estimates.

All records of a household will have same weight figure. In case of those Blocks/Levels, where Item/Person SI.No. is not applicable the field is filled up with 00000.

Use of subsample-wise weights (multipliers)

For generating subsample-wise estimates based on data of all subrounds taken together, either Subsample-1 households or Subsample-2 households are to be considered at one time. Subsample code is available in the dataset For generating subsample-combined estimates based on data of all subrounds taken together all households are to be considered.

# Questionnaires

## Overview

---

Summary description of the schedule : The schedule 10 on employment-unemployment for NSS62nd round consisted of 9 blocks as given below.

Block 0: Descriptive identification of sample household

Block 1: Identification of sample household

Block 2: Particulars of field operations

Block 3 - Household Characteristics.

Block 4: Demographic particulars of household members

Block 5: Usual activity particulars of household member

Block 6: Time disposition of household members during the week

Block 7: Remarks by investigator/ senior investigators

Block 8: Comments by supervisory officer(s).

## Data Collection

### Data Collection Dates

Start	End	Cycle
2005-07-01	2005-09-30	N/A
2005-10-01	2005-12-31	N/A
2006-01-02	2006-03-31	N/A
2006-04-01	2006-06-30	N/A

### Data Collection Mode

Face-to-face [f2f]

### Data Collection Notes

The fieldwork of 62nd round of NSSO started from 1st July, 2005 and continued till 30th June, 2006. As usual, the survey period of this round was divided into four sub-rounds, each with a duration of three months, An equal number of sample villages/blocks (FSUs), as far as possible, were allotted for survey in each of these four sub-rounds.

### Questionnaires

Summary description of the schedule : The schedule 10 on employment-unemployment for NSS62nd round consisted of 9 blocks as given below.

Block 0: Descriptive identification of sample household

Block 1: Identification of sample household

Block 2: Particulars of field operations

Block 3 - Household Characteristics.

Block 4: Demographic particulars of household members

Block 5: Usual activity particulars of household member

Block 6: Time disposition of household members during the week

Block 7: Remarks by investigator/ senior investigators

Block 8: Comments by supervisory officer(s).

## Sub-sample (Subsample)

## File: Block-1-2-Household-ID-records

Sub-sample

**Interviewer instructions**

will be copied from the relevant items of block 1 of Schedule 0.0.

## FOD-Sub-Region (SubRegion)

## File: Block-1-2-Household-ID-records

**Overview**

Type: Discrete

Format: character

Width: 4

Valid cases: 78879

Invalid: 0

**Literal question**

FOD-Sub-Region

**Interviewer instructions**

will be copied from the relevant items of block 1 of Schedule 0.0.

## FirstStageUnit Serial No. (FSU)

## File: Block-1-2-Household-ID-records

**Overview**

Type: Discrete

Format: character

Width: 5

Valid cases: 78879

Invalid: 0

**Literal question**

FirstStageUnit Serial No.

**Interviewer instructions**

will be copied from the relevant items of block 1 of Schedule 0.0.

## Segment no. (Segment)

## File: Block-1-2-Household-ID-records

**Overview**

Type: Discrete

Format: character

Width: 1

Valid cases: 78879

Invalid: 0

**Literal question**

Segment no.

**Interviewer instructions**

This item will be obtained from the heading of block 5a of schedule 0.0. Entries will be either 1 or 2.

## Second-stage-stratum no. (stage2stratum)

## File: Block-1-2-Household-ID-records

**Overview**

Type: Discrete

Format: character

Width: 1

Valid cases: 78879

Invalid: 0

## Second-stage-stratum no. (stage2stratum)

### File: Block-1-2-Household-ID-records

#### Literal question

Second-stage-stratum no.

#### Interviewer instructions

This will be taken from block 5a of schedule 0.0. Entries will be any of 1, 2 or 3 in rural areas and any of 2 or 3 in urban areas.

## Sample hhold. No. (Hhhld\_SlNo)

### File: Block-1-2-Household-ID-records

#### Overview

Type: Discrete

Format: character

Width: 2

Valid cases: 78879

Invalid: 0

#### Literal question

Sample hhold. No.

#### Interviewer instructions

This is same as the order of selection of the sample household for the particular second stage stratum and will be copied from block 5a of schedule 0.0.

## Informant Sl.No. (B1\_q16)

### File: Block-1-2-Household-ID-records

#### Overview

Type: Discrete

Format: character

Width: 2

Valid cases: 78877

Invalid: 0

#### Literal question

Seirial no. of Informant

#### Interviewer instructions

The serial number of the person recorded in column 1 of block 4 from whom the bulk of the information is collected will be entered here. Information is to be collected from members of the household. However, under the compelling circumstances, if bulk of the information is collected from a person who is not a member of the household, '99' will be recorded against this item.

## Response Code (B1\_q17)

### File: Block-1-2-Household-ID-records

#### Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 78879

Invalid: 0

#### Literal question

Response Code

#### Interviewer instructions

This item will be filled in after collecting information for all items in the schedule. The entry is to be made in terms of codes on the basis of the impression formed by the investigator regarding the overall response of the informant

## Survey Code (B1\_q18)

## File: Block-1-2-Household-ID-records

**Overview**

Type: Discrete  
Format: character  
Width: 1

Valid cases: 78879  
Invalid: 0

**Literal question**

Survey Code

**Interviewer instructions**

Whether the originally selected sample household or a substitute household has been surveyed will be indicated against this item by recording code '1' if the originally selected household has been surveyed and code '2' if the substitute household has been surveyed. If neither the originally selected household nor a substitute household could be surveyed, i.e., if the sample household is a casualty, code '3' will be recorded. In case of a casualty only the blocks 0, 1, 2, 7 and 8 are to be filled up and on the top of the front page of the schedule the word 'CASUALTY' will be written in block capitals.

## Substitution Code (B1\_q19)

## File: Block-1-2-Household-ID-records

**Overview**

Type: Discrete  
Format: character  
Width: 1

Valid cases: 2520  
Invalid: 0

**Literal question**

Reason for Substitution of original household (Code)

**Interviewer instructions**

For an originally selected sample household, which could not be surveyed, irrespective of whether a substituted household could be surveyed or not, the reason for not surveying the original household will be recorded against item 19 in terms of codes

## Date of Survey(ddmmyy) (B2\_q2i)

## File: Block-1-2-Household-ID-records

**Overview**

Type: Discrete  
Format: character  
Width: 6

Valid cases: 78877  
Invalid: 0

**Literal question**

Date of Survey(ddmmyy)

**Interviewer instructions**

If the schedule is required to be canvassed for more than one day, the first day of survey is to be recorded against the item serial number 2 (i).

## Date of Despatch(ddmmyy) (B2\_q2iv)

## File: Block-1-2-Household-ID-records

**Overview**

Type: Discrete  
Format: character  
Width: 6

Valid cases: 78734  
Invalid: 0

**Literal question**

Date of Despatch(ddmmyy)

## Time to canvass Sch10(mins.) (B2\_q4)

## File: Block-1-2-Household-ID-records

**Overview**

Type: Discrete  
Format: character  
Width: 3

Valid cases: 78765  
Invalid: 0

**Literal question**

Time to canvass Sch10(mins.)

**Interviewer instructions**

Total time taken to canvass schedule 10, will be recorded in item 4 in whole number of minutes. The time required to canvass the schedule should be the actual time to canvass the schedule and will not include the time needed by the investigator to finalise the schedule.

## HH Size (B3\_q1)

## File: Block-3-Household-Characteristics-records

**Overview**

Type: Continuous	Valid cases: 78879
Format: numeric	Invalid: 0
Width: 2	Minimum: 1
Decimals: 0	Maximum: 35
Range: 1-35	Mean: 4.8
	Standard deviation: 2.5

**Literal question**

HouseHold Size

**Interviewer instructions**

The size of the sample household, i.e., the total number of persons normally residing together (i.e., under the same roof) and taking food from the same kitchen (including temporary stay aways and excluding temporary visitors) will be recorded against this item. This number will be same as the last serial number recorded in column 1 of block 4.

## NIC Code(5-digit) (B3\_q2)

## File: Block-3-Household-Characteristics-records

**Overview**

Type: Discrete  
Format: character  
Width: 5

Valid cases: 74049  
Invalid: 0

**Literal question**

Principal Industry NIC-2004 Code(5-digit)

**Interviewer instructions**

The description of the principal household industry will be recorded in the space provided. The appropriate five-digit industry code of the NIC-2004 is to be recorded against 5 cells provided for recording NIC codes putting one digit in each cell. For households deriving income from non-economic activities only, (e.g. for a household where income is derived only from pension/ begging/ prostitution etc.) a dash (-) may be put against this item.

## NCO Code(3-digit) (B3\_q3)

## File: Block-3-Household-Characteristics-records

**Overview**

Type: Discrete  
Format: character  
Width: 3

Valid cases: 74152  
Invalid: 0

**Literal question**

Principal Occupation NCO-1968 Code(3-digit)

**Interviewer instructions**

The description of the principal household occupation will be recorded in the space provided. The appropriate three-digit occupation code of the NCO-1968 is to be recorded against 3 cells provided for recording the NIC codes putting one digit in each cell. For households deriving income from non-economic activities only, a dash (-) may be put against this item.

## HH type (B3\_q4)

## File: Block-3-Household-Characteristics-records

**Overview**

Type: Discrete  
Format: character  
Width: 2

Valid cases: 78879  
Invalid: 0

**Literal question**

Household Type(code)

**Interviewer instructions**

For the rural areas, the selected household will be assigned appropriate type code out of the following five different household type codes. For urban areas, the household type codes are different.

## Religion (B3\_q5)

## File: Block-3-Household-Characteristics-records

**Overview**

Type: Discrete  
Format: character  
Width: 1

Invalid: 0

**Literal question**

Religion(code)

**Interviewer instructions**

## Religion (B3\_q5)

### File: Block-3-Household-Characteristics-records

The religion of the household will be recorded against this item in codes. If different members of the household claim to belong to different religions, the religion of the head of the household will be considered as the religion of the household.

## Social Group (B3\_q6)

### File: Block-3-Household-Characteristics-records

#### Overview

Type: Discrete  
Format: character  
Width: 1

Valid cases: 78867  
Invalid: 0

#### Literal question

Social Group(code)

#### Interviewer instructions

Whether the household belongs to scheduled tribe, scheduled caste or other backward class will be indicated against this item in terms of the codes: Those who do not come under any one of the first three social groups will be assigned code 9. In case, different members belong to different social groups, the group to which the head of the household belongs will be considered as the 'social group' of the household.

## Land possessed code (B3\_q7)

### File: Block-3-Household-Characteristics-records

#### Overview

Type: Discrete  
Format: character  
Width: 2

Valid cases: 78707  
Invalid: 0

#### Literal question

Land possessed as on date of survey (code)

#### Interviewer instructions

Land possessed is given by land owned (including land under 'owner like possession') + land leased in - land leased out + land held by the household but neither owned nor leased in (e.g., encroached land). The land area possessed by the household within the country as on the date of survey will be worked out in hectares and the relevant code is to be recorded against this item.

## Ration card? (B3\_q8)

### File: Block-3-Household-Characteristics-records

#### Overview

Type: Discrete  
Format: character  
Width: 1

Valid cases: 78864  
Invalid: 0

#### Literal question

Does the household possess any ration card?

#### Interviewer instructions

If a ration card has been issued to the household/ members of the household, the household will be considered to possess a ration card and code '1' is to be given against this item, else code '2' may be recorded.

## Type of ration card code (B3\_q9)

### File: Block-3-Household-Characteristics-records

## Type of ration card code (B3\_q9)

## File: Block-3-Household-Characteristics-records

**Overview**

Type: Discrete  
Format: character  
Width: 1

Valid cases: 58977  
Invalid: 0

**Literal question**

For entry 1 in Item 8 type of ration card (code)

**Interviewer instructions**

Households which possess ration card, it is to be ascertained which of the three types of ration card viz. Antyodaya, BPL or APL is possessed by the household. The BPL (Below Poverty Line) ration card is issued to families which are living below the poverty line. The Antyodaya ration card is meant for the ultra-poor and may be issued to a family if it is considered to be sufficiently below the poverty line. The APL (Above Poverty Line) ration card is issued to families which are above the poverty line.

## Hhld. Cons.exp. -Purchase (B3\_q10)

## File: Block-3-Household-Characteristics-records

**Overview**

Type: Continuous  
Format: numeric  
Width: 7  
Decimals: 0  
Range: 2-1121000

Valid cases: 78693  
Invalid: 186

Maximum: 1121000  
Mean: 3351.7  
Standard deviation: 5073

**Literal question**

Household Consumer expenditure(Rs) during last 30 days out of :Purchase

**Interviewer instructions**

Household consumer expenditure is the sum total of monetary values of all goods and services consumed (out of purchase or procured otherwise) by the household on domestic account during a specific reference period. The definition of household consumer expenditure and the procedure for evaluating it will be the same as for Schedule 1.0.

The household consumer expenditure during last 30 days is to be ascertained, through direct questions, out of the following five sources:

- 1) purchase,
- 2) home-grown/home-produced stock,
- 3) receipt in exchange of goods and services,
- 4) transfer receipts such as gifts, loans, charities, etc.,
- 5) free collection.

These will be recorded in whole number in rupees against items 10 to 14. The total of items 10 to 14 will be recorded against item 15.

## General education (B4\_q7)

## File: Block-4-Persons-demographic-particulars-records

**Overview**

Type: Discrete  
Format: character  
Width: 2

Valid cases: 377187  
Invalid: 0

**Literal question**

Education level-General (code)

**Interviewer instructions**

the highest level of education successfully completed by the members of the household considering general/ technical/ vocational education will be recorded in codes A person who can both read and write a simple message with understanding in at least one language is to be considered literate. Those who are not able to do so, are to be considered not literate and will be assigned code 01. Some persons achieve literacy by attending Non-formal Education Courses (NFEC) or Adult Education Centres (AEC) or by attending primary schools created under Education Guarantee Scheme (EGS). Such persons will be given code 02. Persons who have become literate through attending Total Literacy Campaign (TLC) will be given code 03. Persons who are literate through means other than formal schooling or the two enumerated above will be given code 04. Those, who are by definition literate through formal schooling but are yet to pass primary standard examination will be assigned code 05. Similarly codes 06, 07, 08, and 10 to 13 will be assigned to those who have passed the appropriate levels. The criteria for deciding primary, middle, secondary, etc. levels will be that followed in the concerned states/union territories. Persons who have attained proficiency in Oriental languages (e.g., Sanskrit, Persian, etc.) through formal but not through the general type of education will be classified appropriately at the equivalent level of general education standard. For them who have completed some diploma or certificate course in general, technical education or vocational education which is equivalent to below graduation level, code 11 will be assigned. Whereas, code 12 will be recorded for them who have obtained degree or diploma or certificate general, technical education or vocational education, which is equivalent to graduation level. Similarly, code 13 will be assigned for them who have obtained degree or diploma or certificate in general or technical education, which is equivalent to post-graduation level and above.

## Technical Education (B4\_q8)

## Complaint to authority (B4\_q17)

## File: Block-4-Persons-demographic-particulars-records

## Complaint to authority (B4\_q17)

## File: Block-4-Persons-demographic-particulars-records

**Overview**

Type: Discrete  
Format: character  
Width: 1

Valid cases: 6905  
Invalid: 0

**Literal question**

Whether made any complaint to any authority?

**Interviewer instructions**

There are provisions in some schemes under the public works that a person, who is eligible to get public work but did not get it, not due to his/ her inability to get such work, but for reasons, entirely attributable to the authorities/ agencies entrusted with the task of executing the public work, may make a complaint to panchayat or BDO/ SDO/ other Govt. official of the authorities/agencies responsible for sponsoring or execution of the public works. The complaint may be either written or oral. There may be cases where the household member had not complained but knew that there was provision for complaining, or the household member had not known that provision for complaining existed. Depending upon any one of the situations, obtained for a household member during the last 365 days, appropriate code will be assigned

## Received compensation? (B4\_q18)

## File: Block-4-Persons-demographic-particulars-records

**Overview**

Type: Discrete  
Format: character  
Width: 1

Valid cases: 6641  
Invalid: 0

**Literal question**

Whether received any compensation?

**Interviewer instructions**

For those household members who sought but did not get work in public works, information on whether they received any compensation will be recorded in this column in terms of codes. If the reply is affirmative, assign code 1 and assign code 2 if the reply is negative. There may be situations where a person may get compensation without complaining. In this case also, entry will be 1 in this column.

## Amount of compensation (B4\_q19)

## File: Block-4-Persons-demographic-particulars-records

**Overview**

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0

Valid cases: 0  
Invalid: 377377

**Literal question**

Amount of compensation received

**Interviewer instructions**

This column is applicable for those who received any compensation during the last 365 days, i.e., for code 1 in column (18). The total amount of compensation received, considering both in cash and kind, will be recorded in this column in whole number of rupees.

## Usual principal activity - Status (B5\_q3)

## File: Block-5-Persons-usual-activity-records

**Overview**

Type: Discrete  
Format: character  
Width: 2

Valid cases: 377377  
Invalid: 0

**Literal question**

Usual principal activity - Status(code)

**Interviewer instructions**

For each of the members, the usual principal activity status will be recorded in this column. In the first instance, the broad usual principal activity of the person will be identified based on the various activities pursued by the person during the reference period of last 365 days adopting a 'relatively long time (or major time)' criterion, not necessarily for a continuous period. The broad usual principal activity status will be one of the three categories viz. 'employed' (working), 'unemployed' (available for work) or 'not in labour force' (neither working nor available for work). It is to be noted that in deciding this, only the period normally available in a day for pursuing various activities need to be considered, and not the 24 hours of a day.

## Usual principal activity - NIC-2004 (B5\_q5)

## File: Block-5-Persons-usual-activity-records

**Overview**

Type: Discrete  
Format: character  
Width: 5

Valid cases: 134953

**Literal question**

Usual principal activity - Industry NIC-2004 5 digit code

## Usual principal activity - NIC-2004 (B5\_q5)

## File: Block-5-Persons-usual-activity-records

**Interviewer instructions**

Principal industry-occupation: Columns (5) to (6) will be filled-in for those who are 'working', i.e., those with any one of codes 11, 12, 21, 31, 41, or 51 in column (3). The description of the industry-occupation relevant to the type of economic activity pursued by the person in the status recorded in column (3) will be given in column (4). The corresponding 5-digit industry code (NIC-2004) and the 3-digit occupation code (NCO-68) will be entered in columns (5) and (6), respectively. In case, two or more industry-occupation combinations corresponding to the status code given in column (3) have been reported by a person, the principal industry-occupation will be the one in which relatively more time has been spent during the preceding 365 days by the person.

## Usual principal activity - NCO 68 (B5\_q6)

Usual principal activity - Occupation NCO 68 3 digit code

**Interviewer instructions**

See Q.5 for details

## Whether in subsidiary activity? (B5\_q7)

## File: Block-5-Persons-usual-activity-records

**Overview**

Type: Discrete  
Format: character  
Width: 1

Valid cases: 377377  
Invalid: 0

**Literal question**

Whether engaged in any work in a subsidiary capacity (yes-1, no-2):

**Interviewer instructions**

For each member of the household listed in this block, it has to be ascertained whether he/she worked in a subsidiary capacity during the 365 days preceding the date of survey or in other words if he had any subsidiary economic status. A person will be considered to have worked in the subsidiary capacity if he/she has worked for a minimum period of 30 days, not necessarily for a continuous period, during the last 365 days, and for them code 1 will be recorded in this column. Otherwise, code will be 2. Differentiation between usual principal economic activity and usual subsidiary economic activity will be made by considering activity status and industry at 2-digit level of NIC-2004. Thus, while for a person with two or more economic activities pursued at different activity statuses, one of the economic activity will be considered as usual principal economic activity on the basis of major time criteria, another activity will be considered as usual subsidiary economic activity. On the other hand, if a person pursues two or more economic activities in the same activity status but if the industry at 2-digit level of NIC-2004 are different, then the person will be considered to have different usual principal and usual subsidiary economic activity

## Usual subsidiary activity - Status (B5\_q8)

## Usual subsidiary activity - Status (B5\_q8)

## File: Block-5-Persons-usual-activity-records

**Literal question**

Usual subsidiary activity - Status(code)

**Post question**

If code=2 1 in Q.7 skip Q8 to Q11

**Interviewer instructions**

For all persons engaged in any 'work' in subsidiary capacity, i.e., for those with code 1 in column 7, the status codes of the economic activities pursued by them in their subsidiary capacity will be recorded in column (8). Activity status codes 11, 12, 21, 31, 41 and 51 relate to economic activity and only these codes are applicable for column (8).

## Usual subsidisry activity - NIC-2004 (B5\_q10)

## File: Block-5-Persons-usual-activity-records

**Overview**

Type: Discrete  
Format: character  
Width: 5

Valid cases: 33017  
Invalid: 0

**Literal question**

Usual subsidisry activity - Industry NIC-2004 5 digit code

**Interviewer instructions**

Columns (9) to (11) will be filled-in for those who are 'working' in the subsidiary status, i.e., for those with code 1 in column 7. The description of the industry-occupation relevant to the type of economic activity pursued by the person in the status recorded in column (8) will be given in column (9). The corresponding 5-digit industry code (NIC-2004) and the 3-digit occupation code (NCO-68) will be entered in columns (10) and (11), respectively. In case, two or more industry-occupation combinations corresponding to the status code given in column (8) have been reported by a person, the subsidiary industry-occupation will be the one, in which relatively more time has been spent during the preceding 365 days by the person. Note that Divisions 96 and 97 of NIC-2004 will not be used for collection of industry of work activity for the persons.

## Person srl. No. (B6\_q1)

## File: Block-6-Persons-daily-activity-time-disposition-reecords

**Overview**

Type: Discrete  
Format: character  
Width: 2

Valid cases: 413657  
Invalid: 0

**Interviewer instructions**

Serial number of each person recorded in columns (1) of block 4, will be copied. The serial numbers in block 6 will be entered sequentially as they appear in column (1) of block 4.

## Srl. No. of activity (B6\_q3)

## File: Block-6-Persons-daily-activity-time-disposition-reecords

**Overview**

Type: Discrete  
Format: character  
Width: 1

Valid cases: 413657  
Invalid: 0

**Interviewer instructions**

For each person listed in column (1) of this block (which will be same as listed in column (1) of block 4), different activities pursued by them during all the seven days of the reference week will be serially numbered and this serial number of activity will be recorded in column (3). Presuming that the likelihood of one person pursuing more than four different activities in a week is rather remote, only four lines are provided for each person. As stated earlier, if a person pursues more than four different activities, the lines meant for the next person may be utilised. The current daily activity of a person is generally denoted by his status-cum-industry. For a persons in the rural areas who had current daily activity status 41 (casual labour engaged in public works), if the type of public works performed by the person on a day is different even for the same industry, these will be considered as different activities and separate serial numbers will be assigned for such activities in column (3). Thus, for a person in the rural areas with the same status, if the industry divisions (2-digit NIC-2004 code) are different (for activity status code 41, if either industry or type of public works done is different) on the same or different days, he will be considered to have pursued different activities and these activities will be entered in different lines. Information relating to public works will not be collected for persons in the urban areas. In urban areas, the current daily activity of a person is denoted by his status-cum-industry. Thus, if a person in urban area (urban sample) is engaged in the pubic works on half-a-day, say, 'road construction, laying pipes and cables' as casual labour (i.e., with status code 41) and on other half of the day he/she is engaged in other pubic work, say, 'building construction/ repair' as casual labour (i.e., with status code 41), he will be considered to have only one activity. But, in rural areas (rural sample), he will be considered to have two activities on that day and two separate lines will be used for recording his/her particulars of work.

## Age (B6\_q2)

## File: Block-6-Persons-daily-activity-time-disposition-reecords

**Overview**

## Age (B6\_q2)

## File: Block-6-Persons-daily-activity-time-disposition-records

Valid cases: 147897  
 Invalid: 0

**Literal question**

For codes 11:72 in Q.4, Industry division (2-digit NIC-2004 code

**Interviewer instructions**

For each status code grouped under the activity category 'working' (i.e., for the status codes 11-72 recorded in column 4), the 2-digit NIC-2004 code will be entered in column (5) in terms of the specified code numbers.

## Type of public works (B6\_q6)

## File: Block-6-Persons-daily-activity-time-disposition-records

**Overview**

Type: Discrete  
 Format: character  
 Width: 1

Valid cases: 396  
 Invalid: 0

**Literal question**

For rural areas and for code 41 in Q.4, Type of public works(code)

**Interviewer instructions**

This column is applicable for rural samples only and for those members of the household who had been assigned status code 41 in column (4). The type of public works done by the household member will be recorded in terms of codes:

## Intensity- 7th day(0.0) (B6\_q7)

## File: Block-6-Persons-daily-activity-time-disposition-records

**Overview**

## Intensity- 7th day(0.0) (B6\_q7)

## File: Block-6-Persons-daily-activity-time-disposition-records

Type: Continuous  
 Format: numeric  
 Width: 3  
 Decimals: 1  
 Range: 0-1

Valid cases: 385510  
 Invalid: 28147  
 Minimum: 0  
 Maximum: 1  
 Mean: 1  
 Standard deviation: 0.1

**Literal question**

Intensity of activity: 7th day

**Interviewer instructions**

For each activity recorded in column (3), the intensity with which the particular activity is performed on the different days of the reference week will be recorded in quantitative terms 'half' or 'full' in these columns. As described earlier, for each activity listed in column (3) either one 'full' intensity or two 'half' intensity may be assigned to a person on any one of the seven days of the reference week. For a particular activity, the recording of entries in columns (7) - (13) should start from column (7) which is provided for recording the intensity of that activity on the seventh day of the reference week, i.e., the day preceding the date of survey. Similarly, the intensity of that activity on the sixth, fifth and earlier days of the week will be recorded in columns (8), (9), (10), (11), (12) and (13) respectively. If the intensity of an activity is 'full' on a particular day, '1.0' will be recorded in the relevant column. On the other hand, if the intensity is 'half', the entry will be '0.5'. If that particular activity is not pursued on some other days of the reference week, the corresponding columns provided in the block for those days will be left blank against that activity. Thus, for each day, for a person, there will be either only one entry with intensity 1.0 in any one of the lines or two entries with intensity 0.5 each in any two of the lines.

## Intensity- 6th day(0.0) (B6\_q8)

### File: Block-6-Persons-daily-activity-time-disposition-records

#### Overview

Type: Continuous	Valid cases: 62663
Format: numeric	Invalid: 350994
Width: 5	Minimum: 0
Decimals: 0	Maximum: 31000
Range: 0-31000	Mean: 836.8
	Standard deviation: 1043.6

#### Literal question

Wage and salary earnings (received or receivable) for the work done during the week (Rs):-Total

## Current weekly activity status (B6\_q18)

### File: Block-6-Persons-daily-activity-time-disposition-records

#### Overview

Type: Discrete	Valid cases: 413657
Format: character	Invalid: 0
Width: 2	

#### Literal question

Current weekly status (code)

#### Interviewer instructions

Based on the activity status obtaining for a person on the seven days of the reference week, the current weekly status is to be identified and the status code so obtained is to be recorded here.

## Current weekly activity NIC-2004 (B6\_q19)

### File: Block-6-Persons-daily-activity-time-disposition-records

#### Overview

Type: Discrete	Valid cases: 172219
Format: character	Invalid: 0
Width: 5	

#### Literal question

Current weekly activity NIC-2004( 5 digit code)

#### Interviewer instructions

For persons with any of codes 11-72 in column (18), the 5-digit industry (NIC-2004) and 3-digit occupation (NCO-68) will be recorded in these two columns. Note that to identify certain category of workers separately, NIC-2004 industry class code 9500 has been split. Those are to be considered here also. The industry and occupation will correspond to the economic activity in which the highest number of days have been spent as explained in the previous paragraph. In the cases where equal number of days is spent on two or more activities (like in the case of person with serial number 4 in the above example) the industry and occupation corresponding to the activity appearing first in the code list in terms of status and industry will be noted in columns (19) & (20). For each person listed in this block with codes 11-72 in column (18), the description of industry-occupation, corresponding to the weekly activity status, will be recorded in the space provided under columns (18) to (20).

## Current weekly activity NCO-68 (B6\_q20)
